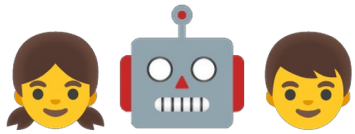
📖 PREFACE



Artificial Intelligence is becoming a part of everyday life, from the phones we use to the way we learn, travel and stay safe. Children today are growing up with smart helpers all around them. It is important that they understand AI early, in a simple, joyful and responsible way.

This book has been prepared for the Global AI Olympiad (GAIO) by Mamma Ada Centre, in collaboration with FACM, Italy. It follows the GAIO six-month journey: AI Discover, AI Connect, AI Solve, AI Rise, AI Create and AI Care. Each month introduces two topics suited to the curiosity and abilities of Class 3 learners.

Every topic begins with a colourful introduction and continues with "Learn with Bolt", where Meera, Arjun and their robot friend Bolt explain ideas through friendly conversations and picture words. An illustrated story, real-life examples, hands-on activities, worksheets, puzzles, quizzes and standard exercises help children learn by seeing, reading, doing and thinking.

Values are at the heart of this book. Along with learning what AI can do, children learn that people create and guide technology, that AI can make mistakes, and that safety, kindness and privacy matter online and offline.

🤝 **A note for teachers and parents**

Read the conversations and stories aloud with children, encourage them to ask questions, and use devices together with them. Praise effort and curiosity more than right answers. An answer key is provided at the end of the book.

We hope this book sparks curiosity, creativity and confidence in every young learner. Curious minds, brighter futures!

With best wishes,

The GAIO Academic Team

Meera

Meera: Hello Bolt! Are you a 🤖 toy?

Bolt: Hello Meera! I am a 🤖 robot with AI. AI means Artificial Intelligence.

Bolt

Arjun

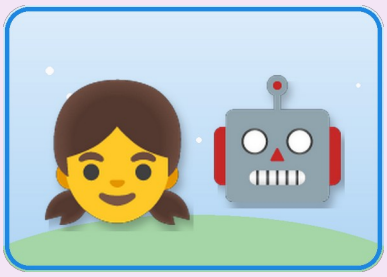
STORY TIME: Bolt Learns About Cats

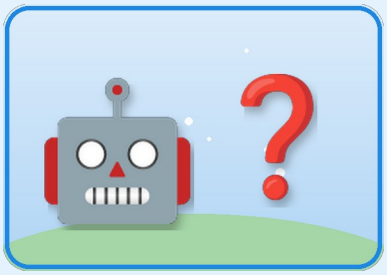
Meera | Bolt | Mittu the cat



SCENE 1

One sunny morning, Meera found a shiny box 📦. Out popped a robot! BEEP BOOP! "Hello! I am Bolt," said the robot.

A soft "Meow!" came from the window 🪟. Bolt looked confused. "What is that fluffy thing?" asked Bolt.

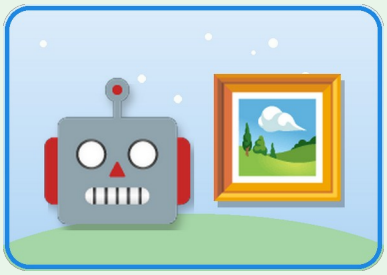


SCENE 2

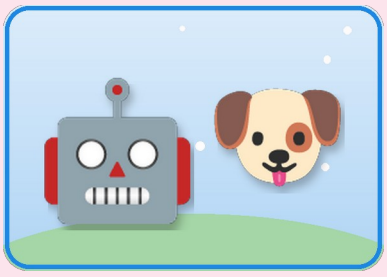
SCENE 3

Meera giggled. "That is Mittu, my cat 🐱! Let me show you." She opened a big picture book with 100 cat photos 🖼️.

Bolt looked at every photo. Big cats, small cats, black cats, white cats. WHIRR WHIRR went Bolt's brain 💡.



SCENE 4



SCENE 5

Then a puppy 🐶 ran in. "Is that a cat?" asked Meera. Bolt thought hard. "No! It has no whiskers. It is not a cat!"

"Hooray!" cheered Meera. "You learnt from examples, just like me!" Mittu purred 🐱 and Bolt did a happy robot dance.

Arjun: Algorithm! A cool word for steps in order 😎!

🖼️ Picture sentences: read them aloud!

1. First , next , then , last .
2. An algorithm is steps in order.

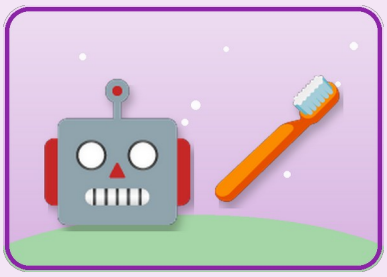
🌟 BOLT'S BIG IDEA

Order means first, next and last. Machines follow steps one by one. Steps in order make an algorithm.

✋ **Try it with Bolt!** Act out brushing your teeth in 4 steps. Ask a friend to say the order!

📚 STORY TIME: The Great Tooth-Brushing Mix-Up

👦 Arjun 🤖 Bolt 👨 Appa



SCENE 1

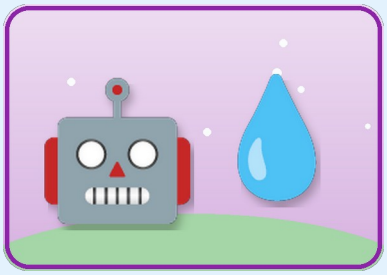
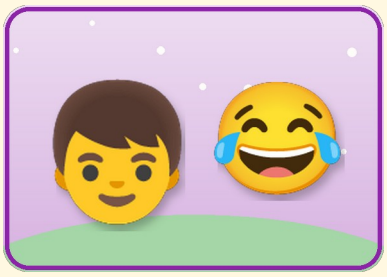
First, Bolt rinsed the brush 🪥. Next, Bolt brushed... with no toothpaste! Then he put the toothpaste on the mirror 🪞!



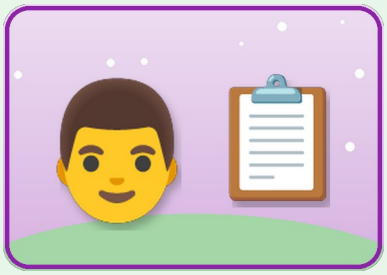
SCENE 2



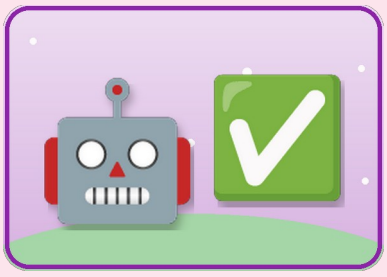
SCENE 3

Arjun laughed so hard. "Bolt, the steps are in the wrong order!"

Appa drew the steps on a card 📋: 1. Wet the brush. 2. Add toothpaste. 3. Brush. 4. Rinse your mouth.



SCENE 4



SCENE 5

Bolt followed the card step by step. 1, 2, 3, 4! Arjun's teeth were sparkly clean ✨.

"Steps in the right order are called an algorithm!" said Appa. "Algo-rhythm!" sang Bolt, dancing.
