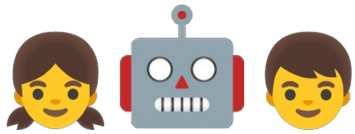
# 📖 PREFACE



Artificial Intelligence is becoming a part of everyday life, from the phones we use to the way we learn, travel and stay safe. Children today are growing up with smart helpers all around them. It is important that they understand AI early, in a simple, joyful and responsible way.

This book has been prepared for the Global AI Olympiad (GAIO) by Mamma Ada Centre, in collaboration with FACM, Italy. It follows the GAIO six-month journey: AI Discover, AI Connect, AI Solve, AI Rise, AI Create and AI Care. Each month introduces two topics suited to the curiosity and abilities of Class 5 learners.

Every topic begins with a colourful introduction and continues with "Learn with Bolt", where Meera, Arjun and their robot friend Bolt explain ideas through friendly conversations and picture words. An illustrated story, real-life examples, hands-on activities, worksheets, puzzles, quizzes and standard exercises help children learn by seeing, reading, doing and thinking.

Values are at the heart of this book. Along with learning what AI can do, children learn that people create and guide technology, that AI can make mistakes, and that safety, kindness and privacy matter online and offline.

🤝 **A note for teachers and parents**

Read the conversations and stories aloud with children, encourage them to ask questions, and use devices together with them. Praise effort and curiosity more than right answers. An answer key is provided at the end of the book.

*We hope this book sparks curiosity, creativity and confidence in every young learner. Curious minds, brighter futures!*

With best wishes,

**The GAIO Academic Team**

# LEARN WITH BOLT: The Secret Behind AI

Meera

Arjun

Bolt

📢 **Read aloud with friends! Each friend reads one part.**

Arjun

**Arjun:** Bolt, what is the big secret behind AI 🤫?

**Bolt:** The secret is DATA 📊: lots and lots of examples!

Bolt

Meera

**Meera:** Data? Like numbers?

**Bolt:** Data can be numbers 🔢, pictures 🖼️, sounds 🔊 or words 🔤. Any information we collect.

Bolt

Arjun

**Arjun:** What does AI do with data?

**Bolt:** AI finds patterns 🔁 in data. Then it makes smart guesses about new things.

Bolt

Meera

**Meera:** Like a pattern in the weather 🌦️?

**Bolt:** Yes! If dark clouds ☁️ came before rain 🌧️ many times, AI guesses rain when it sees dark clouds.

Bolt

Arjun

**Arjun:** So more data makes AI smarter?

**Bolt:** More GOOD data = smarter AI! Bad or wrong data makes AI confused 😵.

Bolt

Meera

**Meera:** Like learning from a book with mistakes 📕❌!

**Bolt:** Exactly! Good data in, good answers out ✅.

Bolt

🖼️ **Picture sentences: read them aloud!**

1. AI learns from 📊 data: many examples.
2. AI finds 🔁 patterns to make smart guesses.

🌟 **BOLT'S BIG IDEA**

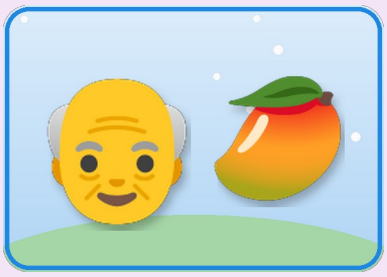
# 📚 STORY TIME: The Mango Pattern

Arjun

Thatha

Bolt

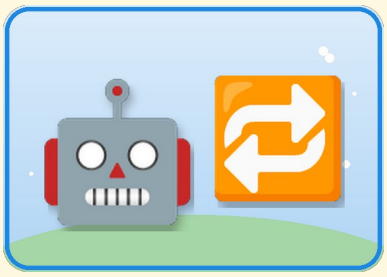


SCENE 1

Thatha had a mango tree 🌳. Every year he wrote down when the mangoes became ripe in a notebook 📒.

Arjun found the notebook. Ten years of data! April, April, May, April, April... "I see a pattern!" he said.

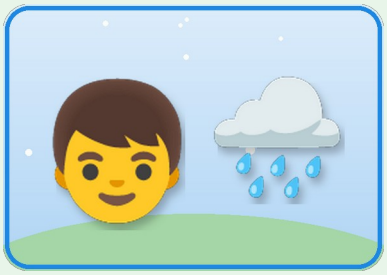
SCENE 2



SCENE 3

Bolt studied the data. "In 8 of 10 years, mangoes ripened in April. When it rained a lot in March 🌧️, they came in May."

"This March had heavy rain," said Arjun. "So we guess... May!" Thatha smiled. "Let's see."



SCENE 4

SCENE 5

April passed, green mangoes 🟢. Then in May, sweet yellow mangoes everywhere! The guess was right ✅.

"Your notebook was the secret," said Arjun. "Good data helps make smart guesses!" They shared mango juice 🧃 together.

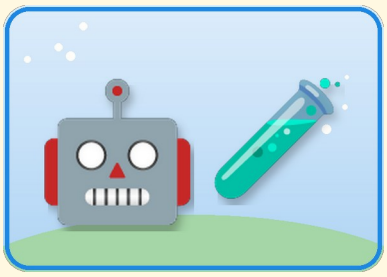
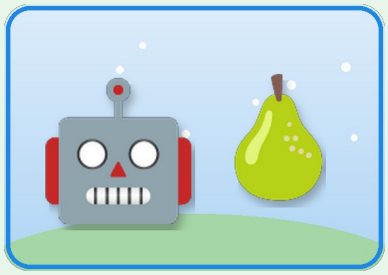
SCENE 2



SCENE 3

Test time! Meera held up new fruits Bolt had never seen. "Apple! Orange! Apple!" Bolt was right 9 times out of 10 🎯.

Then Meera showed a green apple 🍏. "Er... orange?" said Bolt. Everyone laughed. All its apples had been red!



SCENE 4

SCENE 5

"We need better data," said Meera. She trained Bolt again with green apples, red apples and different oranges.

Bolt passed the next test with 10 out of 10! Teacher Anita gave him a tiny graduation cap 🎓. "More variety, better learning!"

Bolt

📢 **Read aloud with friends! Each friend reads one part.**

Meera

**Meera:** Bolt, how do commands become games 🎮?

**Bolt:** When we put commands together in order, we create programs 💻!

Bolt

Arjun

**Arjun:** My game needs a cat 🐱 to walk across the screen.

**Bolt:** Command: move 10 steps 👣. But walking across needs MANY moves.

Bolt

Meera

**Meera:** Do we write 'move 10 steps' 20 times?

**Bolt:** No! We use a LOOP 🔁. A loop repeats steps again and again.

Bolt

Arjun

**Arjun:** Repeat 20 times: move 10 steps!

**Bolt:** Perfect! Loops save time and make code short.

Bolt

Meera
