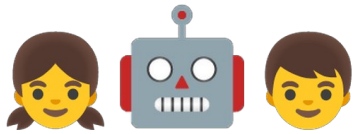
📖 PREFACE



Artificial Intelligence is shaping how we learn, communicate, travel, farm, heal and create. As senior students, you are ready not only to use AI tools, but to understand how they work, question their answers and use them responsibly. This book is designed to build exactly those skills.

This book has been prepared for the Global AI Olympiad (GAIO) by Mamma Ada Centre, in collaboration with FACM, Italy. It follows the GAIO six-month journey: AI Discover, AI Connect, AI Solve, AI Rise, AI Create and AI Care. Each month introduces two topics suited to the curiosity and abilities of Class 6 learners.

Every topic opens with a clear introduction and continues with "Tech Talk", a group chat in which Riya, Kabir and their AI mentor Bolt explore ideas through real-life examples. A "How it works" flow, an India Spotlight, a hands-on Demo Lab with real AI tools, an "AI Chronicles" story, worksheets, quizzes, and standard and case-based exercises help you learn by reading, doing, questioning and creating.

Values are at the heart of this book. Along with learning what AI can do, children learn that people create and guide technology, that AI can make mistakes, and that safety, kindness and privacy matter online and offline.

🤝 A note for teachers and parents

Encourage students to try the Demo Labs under supervision, discuss the case studies, and question AI answers rather than accept them blindly. Praise reasoning and curiosity as much as right answers. An answer key is provided at the end of the book.

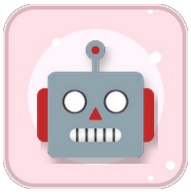
We hope this book sparks curiosity, creativity and confidence in every young learner. Curious minds, brighter futures!

With best wishes,

The GAIO Academic Team

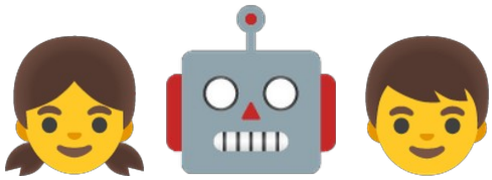
Mamma Ada Centre • In collaboration with FACM, Italy

Welcome, Seniors!



MEET BOLT!

Hi, I am Bolt, your AI mentor! Chat with Riya and Kabir, try real AI tools, read AI Chronicles and crack case-based questions.



Look for these pictures in your book:

TECH TALK Concepts in a group chat

AI CHRONICLES Stories of teens & AI

LOOK AROUND YOU See AI in real life

LET'S DO IT! Do a fun activity

WORKSHEET Write, tick and draw

PUZZLE FUN Solve puzzles

DEMO LAB Hands-on AI tool demo

QUIZ TIME Answer quiz questions

TRUE OR FALSE True or false?

EXERCISE Standard & case-based Qs

MAGIC WORDS New words to learn

UNIT REVIEW Check your unit

My 6-Month AI Journey

Follow the path. One month at a time!

	MONTH 1 **AI DISCOVER** AI Basics	**How Machines Get Smart • Learning from Examples**

Topic 1

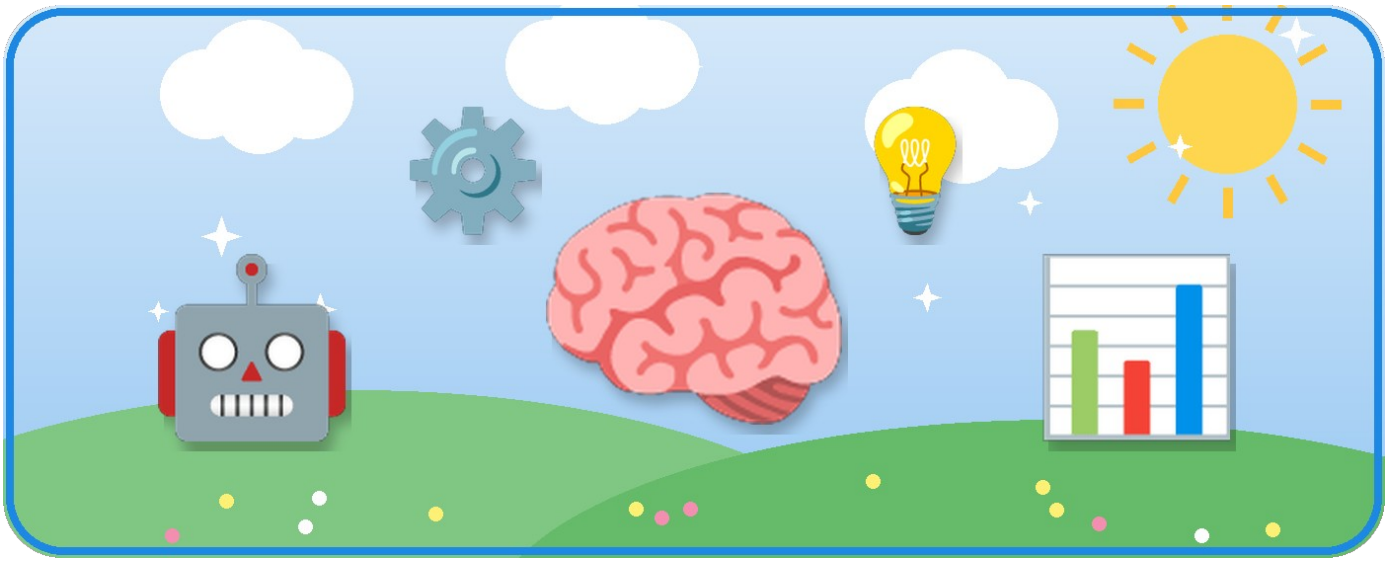
How Machines Get Smart

Topic 2

Learning from Examples

TOPIC 1 • MONTH 1 • AI BASICS

How Machines Get Smart



LET'S LEARN

- A normal machine follows fixed rules written by people.
- A smart machine uses AI to learn from data and improve.
- Data + practice + feedback = a smarter machine!

From simple to smart

Fixed rules

Data

Practice

Feedback

MAGIC WORDS

Rule A fixed instruction

Feedback Telling right or wrong

Neural Like brain cells

💬 TECH TALK: How Machines Get Smart

💬 GAIO Squad Riya, Kabir, Bolt • online

👦 Kabir

Bolt, my calculator 🧮 is fast. Is it smart?

10:02

🤖 Bolt

Fast, yes. Smart, no! It follows fixed rules written by people. It never learns.

10:04 ✓✓

👧 Riya

So what makes a machine 'smart'?

10:06

🤖 Bolt

A smart machine uses AI to learn from data 📊 and improve with practice.

10:08 ✓✓

👦 Kabir

Like a spam filter 📧 that gets better every week?

10:10

🤖 Bolt

Exactly. Every time you mark an email as spam, that's feedback ✅. It learns from it.

10:12 ✓✓

👧 **Riya**

So the recipe is data + practice + feedback?

10:14

🤖 **Bolt**

Yes! That loop makes a machine smarter over time 🔁.

10:16 ✓✓

👦 **Kabir**

Is my brain 🧠 a smart machine too? 😄

10:18

🤖 **Bolt**

Your brain is the original! Neural networks in AI are loosely inspired by brain cells.

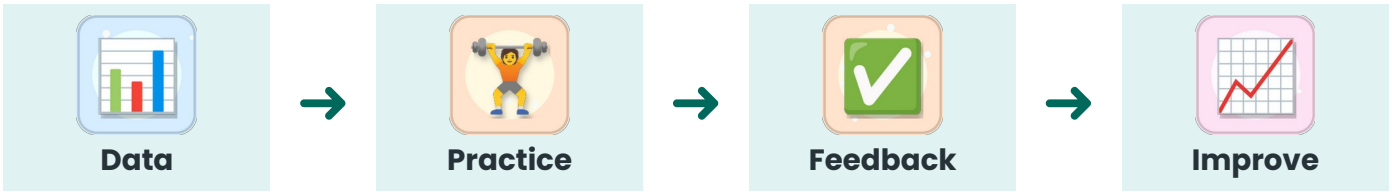
10:20 ✓✓

😊 Type a message...

📌 **Pinned by Bolt**

A normal machine follows fixed rules. A smart machine learns from data, practice and feedback, and improves.

🔄 How it works



INDIA SPOTLIGHT

India's UPI payment system handles billions of transactions every month, and AI systems help banks spot suspicious payments to fight fraud.

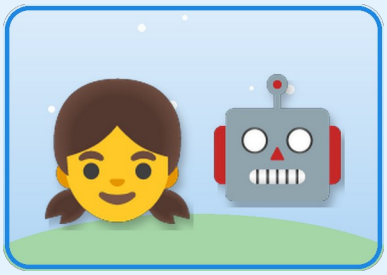
AI CHRONICLES: The Spam Detective

Riya Kabir Bolt

SCENE 1

Riya's family email was flooded with 'YOU WON ₹10 LAKH!' messages 💰. Her mother almost clicked one.

"Bolt, why didn't the filter stop these?" Bolt replied, "It's still learning. Let's teach it with feedback ✅."

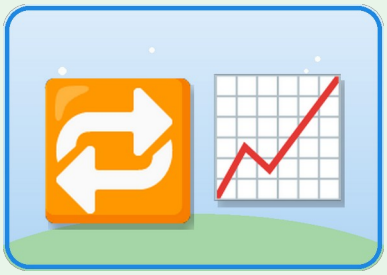


SCENE 2

SCENE 3

Kabir and Riya marked 40 messages as spam and rescued 5 real emails from the spam folder 📂.

Each day, the filter improved. Fewer fake prizes, more real school messages 🏫.



SCENE 4

SCENE 5

A week later, only 1 spam email got through. "Data + practice + feedback!" said Kabir.

Riya explained the idea at the school assembly. The principal called it 'Machines that learn from us!' 🎤

SCENE 6

🔮 What happens next? Tick ✓ one!

☐ They teach their grandparents to report spam	☐ They click the prize link	☐ The filter stops working forever

🧐 Story check: answer the questions.

1. What problem did Riya's family have?

2. How did Riya and Kabir help the filter learn?

3. What is the recipe for a smarter machine?

Rate this story: shade the stars.

☆ ☆ ☆ ☆ ☆

LOOK AROUND YOU: Machines that got smarter

Keyboard learns your words

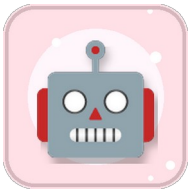
Voice app learns accents

Camera learns faces

Maps learn traffic

Game AI learns your moves

Weather AI learns patterns



BOLT SAYS:

I wasn't born smart. I got smarter with every example and every correction!

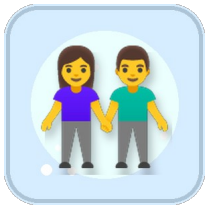
FUN FACT!

Some AI systems are called "neural networks" because they were inspired by how our brain cells connect!

👀 **I spy AI! Draw one AI helper you saw today.**

LET'S DO IT! Rule Bot vs Smart Bot

You need:



Two teams

Animal cards

Score sheet

Steps:

1.
   Team A is Rule Bot: "IF 4 legs, THEN dog."
2.
   Team B is Smart Bot: it looks at many examples first.
3.
   Teacher shows animal cards: cat, cow, hen...
4.
   Which bot made fewer mistakes? Why?

THINK & TALK

Why did the fixed rule make mistakes with a cat?

Draw what you did!

WORKSHEET: How Machines Get Smart (Part A)

Name: _____ Date: _____

1. Fixed rule or learns from data? Tick ✓.

	Fixed rule	Learns
Alarm rings at 6 am		
Keyboard learns my words		
Switch turns on a bulb		
App learns what I like		
Map learns about traffic		

2. How a machine gets smarter. Write 1, 2, 3, 4.

Get feedback ☐

Collect data ☐

Get better ☐

Practise ☐

WORKSHEET: How Machines Get Smart (Part B)

Name: _____ Date: _____

1. Circle the machines that can learn.

Smart keyboard

Hammer

Map app

Chair

Game AI

Smart speaker

2. Fill in the blanks. Use the word box.

WORD BOX: feedback ✿ rules ✿ data

Normal machines follow fixed _____.

Smart machines learn from _____.

Right-or-wrong information is _____.

PUZZLE FUN: How Machines Get Smart

🧪 DEMO LAB: Quick, Draw!

Name: _____ Date: _____

🎯 **Goal:** See how an AI guesses your doodles after learning from millions of drawings.

🔗 **Open:** quickdraw.withgoogle.com | 👩‍🏫 **With a teacher or parent**

👣 Steps

1		Open Quick, Draw! with your teacher or parent.
2		Read the word shown (e.g., 'bicycle') and start drawing.
3		Watch the AI guess what you are drawing in real time.
4		Play 6 rounds. Note which drawings it guessed and which it missed.
5		Open 'What the AI saw' to view other people's drawings of the same word.

🔬 Record your observations

Which drawing was guessed fastest?	
Which drawing did it miss? Why?	
What did you notice about others' drawings?	

💭 **Reflect:** How does seeing millions of examples help the AI guess better?

? QUIZ TIME: How Machines Get Smart

Circle the right answer!

Q1. A normal machine follows...

a) Fixed rules

b) Music

c) Rain

Q2. Smart machines learn from...

a) Pizza

b) Data

c) Socks

Q3. Telling AI right or wrong is...

a) Sleeping

b) Painting

c) Feedback

Q4. Neural networks are inspired by...

a) The brain

b) Trees

c) Cars

Q5. Which one learns?

a) A switch

b) Smart keyboard

c) A hammer

MY SCORE: _____ / 5. Shade one star per correct answer.

☆ ☆ ☆ ☆ ☆

✅ TRUE OR FALSE: How Machines Get Smart

Look at the picture. Tick ✓ TRUE or FALSE.

		👍 TRUE	👎 FALSE
	Normal machines follow fixed rules.		
	Smart machines learn from data.		
	A hammer learns from practice.		
	Feedback helps AI improve.		
	Neural networks are inspired by the brain.		
	Machines get smart by magic.		

HOME CONNECT

Show your family how your phone keyboard suggests words. Does it learn your words?

🔢 Self-assessment: tick one.

I know it well!

I know some.

I need practice.

EXERCISE: How Machines Get Smart

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. A normal machine follows ____.

(a) fixed rules ☐ **(b)** its feelings ☐ **(c)** dreams ☐

2. A smart machine learns from ____.

(a) noise ☐ **(b)** data ☐ **(c)** sleep ☐

3. Marking an email as spam gives the filter ____.

(a) electricity ☐ **(b)** music ☐ **(c)** feedback ☐

4. Neural networks are loosely inspired by ____.

(a) brain cells ☐ **(b)** rocks ☐ **(c)** clouds ☐

B. Fill in the blanks. Use the word box.

feedback **fixed** **improve** **data**

1. Data + practice + ____ = a smarter machine.

2. A calculator follows ____ rules.

3. Smart machines ____ over time.

4. AI learns from ____.

C. Write T for True and F for False.

1. A calculator learns from data. [ ]

2. Spam filters improve with feedback. [ ]

3. Smart machines can improve with practice. [ ]

4. Feedback is never useful to AI. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Rule	____	**(a)** Telling right or wrong
2. Data	____	**(b)** A fixed instruction
3. Feedback	____	**(c)** Inspired by brain cells
4. Neural network	____	**(d)** Information to learn from

E. Answer in one word.

1. What does a smart machine learn from? _____

2. What do we give AI when we correct it? _____

3. Is a simple calculator AI? _____

F. Answer these questions.

1. Differentiate a normal machine and a smart machine.

2. How does a spam filter get smarter?

G. Case-based questions. Read and answer.

A video app shows Arjun cricket videos. He skips them and watches science videos instead. After a week, the app shows mostly science videos.

1. What did the app learn from?

(a) Arjun's viewing behaviour ☐ **(b)** The weather ☐ **(c)** Random guesses ☐

2. Skipping a video acts as _____.

(a) data loss ☐ **(b)** feedback ☐ **(c)** a virus ☐

3. This app is an example of _____.

(a) a fixed-rule machine ☐ **(b)** a calculator ☐ **(c)** a learning machine ☐

H. THINK DEEPER

Can a machine that learns also learn something wrong? Explain with an example.

TOPIC 2 • MONTH 1 • AI BASICS

Learning from Examples

LET'S LEARN

- AI learns by looking at many labelled examples.
- This is called TRAINING. The examples are TRAINING DATA.
- Good, varied examples make AI fair and correct.

Training an AI

Collect pictures

Add labels

Train

Test

MAGIC WORDS

Label Name for an example

Training Learning from data

Variety Many different kinds

💬 TECH TALK: Learning from Examples

💬 GAIO Squad Riya, Kabir, Bolt • online

👧 Riya
Bolt, how did you learn to recognise cats 🐱?
10:02

🤖 Bolt
People showed me thousands of photos labelled 'cat' and 'not cat' 🏷️. That's TRAINING.
10:04 ✓✓

👦 Kabir
And those photos are called?
10:06

🤖 Bolt
TRAINING DATA. Then I'm TESTED on new photos I've never seen 🧪.
10:08 ✓✓

👧 Riya
What if all your cat photos were orange cats 🟠?
10:10

🤖 Bolt
Then I might fail on black cats ⚫! That's bias from narrow data.
10:12 ✓✓

Kabir
So the data must be varied and fair.
10:14

Bolt
Yes! Different breeds, angles, lights and backgrounds make me fair and correct ⚖️.
10:16 ✓✓

Riya
Garbage in, garbage out?
10:18

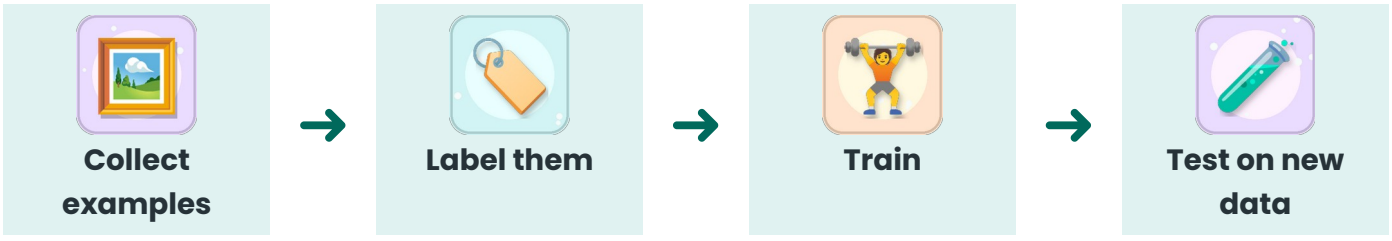
Bolt
Exactly. Good examples in, good answers out 🌟.
10:20 ✓✓

😊 Type a message...

📌 **Pinned by Bolt**

AI learns from many labelled examples (training data), then is tested on new examples. Varied, fair data makes AI correct.

🔄 How it works



INDIA SPOTLIGHT

Bhashini, an Indian government initiative, collects speech and text in Indian languages to train AI that can translate between them.

AI CHRONICLES: The Mango Sorter Mix-Up

Kabir

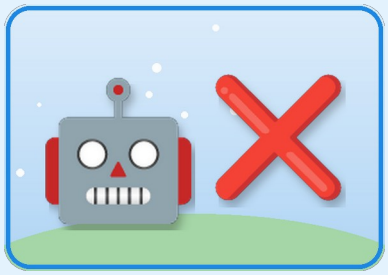
Uncle Ravi

Bolt

SCENE 1

Uncle Ravi bought an AI machine to sort ripe and raw mangoes 🥭. Kabir was excited to watch.

But the machine kept calling green-skinned ripe mangoes 'raw' 🟢. Customers complained!



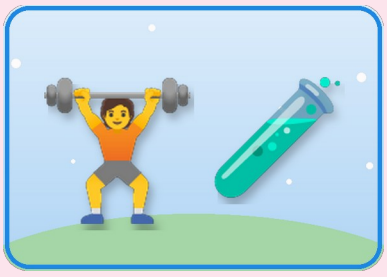
SCENE 2

SCENE 3

Kabir checked the training photos. All 'ripe' examples were yellow mangoes under bright light ☀️.

They took 300 new photos: green-ripe varieties, shadows, cloudy days. Each was carefully labelled 🏷️.

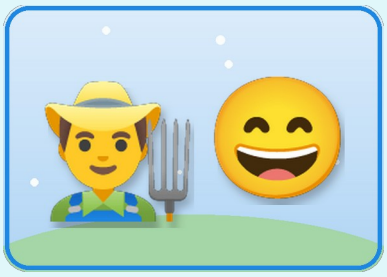
SCENE 4



SCENE 5

The machine was retrained and tested on new mangoes. It now sorted correctly 95 times out of 100 🎯.

"Varied data made it fair!" laughed Uncle Ravi, handing Kabir the sweetest mango as a reward 🎁.



SCENE 6

🔮 What happens next? Tick ✓ one!

☐	☐	☐
Kabir helps train a sorter for bananas	**Uncle Ravi throws away the machine**	**The mangoes sort themselves**

🧐 Story check: answer the questions.

1. What mistake did the machine make?

2. Why did it make that mistake?

3. How did they fix it?

Rate this story: shade the stars.

☆ ☆ ☆ ☆ ☆

LOOK AROUND YOU: Learning from examples in life

Spam: thousands of junk emails

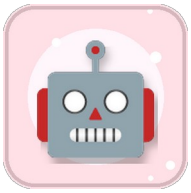
Health: many X-rays

Farm: photos of sick leaves

Writing: many handwritings

Voice: many speakers

Cars: many road videos



BOLT SAYS:

If you only show me white cats, I may not know a black cat is a cat. Show me variety!

FUN FACT!

Many people around the world work to label data so AI can learn from it!

👀 **I spy AI! Draw one AI helper you saw today.**

LET'S DO IT! Label It Right!

You need:

Picture cards

Sticky labels

A team

Steps:

1. Get 10 picture cards: fruits and vegetables.
2. Stick a label on each: FRUIT or VEGETABLE.
3. Swap with another team. Check their labels!
4. Find any wrong labels. How would they confuse an AI?

THINK & TALK

What happens to an AI that learns from wrong labels?

Draw what you did!

WORKSHEET: Learning from Examples (Part A)

Name: _____ Date: _____

1. Label the training data! Tick ✓.

	Fruit	Vegetable
Mango		
Potato		
Pineapple		
Onion		
Watermelon		

2. Fill in the blanks. Use the word box.

WORD BOX: label ✿ variety ✿ training

A _____ tells AI what the example is.

Learning from examples is called _____.

Different kinds of examples give _____.

WORKSHEET: Learning from Examples (Part B)

Name: _____ Date: _____

1. Match the AI to its training data.

Spam filter ●

Health AI ●

Farm AI ●

Voice AI ●

●

Many speakers

●

Junk emails

●

Leaf photos

●

Many X-rays

2. Good training data or not? Tick ✓.

	Good	Not good
Cats of many colours		
Only white cats		
Correct labels		
Wrong labels

🧪 DEMO LAB: Teachable Machine

Name: _____ Date: _____

🎯 **Goal:** Train your own AI model to recognise two hand signs.

🔗 **Open:** teachablemachine.withgoogle.com | 👩‍🏫 **With a teacher or parent**

👣 Steps

1		Open Teachable Machine > Image Project (with a teacher).
2		Class 1: hold up an open palm and record ~50 samples.
3		Class 2: show a fist and record ~50 samples.
4		Click 'Train Model' and wait.
5		Test: show new hand signs. Check the confidence bars.

🔬 Record your observations

Accuracy with good lighting:	
Accuracy in dim light:	
What happened when you showed a thumbs-up (not trained)?	

💭 **Reflect:** What would you add to the training data to make your model more accurate?

? QUIZ TIME: Learning from Examples

Circle the right answer!

Q1. Examples with names are...

a) Labelled data

b) Balloons

c) Biscuits

Q2. Learning from data is...

a) Singing

b) Training

c) Resting

Q3. Only white cats in data means AI may...

a) Paint cats

b) Love cats

c) Miss black cats

Q4. Good training data has...

a) Variety

b) Mistakes

c) Rubbish

Q5. After training, we...

a) Delete it

b) Test it

c) Hide it

MY SCORE: ____ / 5. Shade one star per correct answer.

☆ ☆ ☆ ☆ ☆

✅ TRUE OR FALSE: Learning from Examples

Look at the picture. Tick ✓ TRUE or FALSE.

		👍 TRUE	👎 FALSE
	A label tells AI what the example is.		
	Only white cats is good variety.		
	Learning from examples is training.		
	Wrong labels confuse AI.		
	We never test AI after training.		
	Many people label data for AI.		

HOME CONNECT

Sort your family's groceries into labelled groups. You are a data labeller!

🔢 Self-assessment: tick one.

I know it well!

I know some.

I need practice.

EXERCISE: Learning from Examples

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. Showing AI labelled examples is called ____.

(a) training ☐ **(b)** sleeping ☐ **(c)** drawing ☐

2. Examples used for learning are ____ data.

(a) secret ☐ **(b)** training ☐ **(c)** broken ☐

3. Testing uses examples the AI has ____.

(a) memorised ☐ **(b)** trained on ☐ **(c)** never seen ☐

4. Narrow, one-sided data can cause ____.

(a) bias ☐ **(b)** rain ☐ **(c)** speed ☐

B. Fill in the blanks. Use the word box.

label fair test out

1. Each example has a ____.

2. Varied data makes AI ____.

3. We ____ AI on new data.

4. Garbage in, garbage ____.

C. Write T for True and F for False.

1. Training data should be varied. [ ]

2. Testing uses the same photos as training. [ ]

3. Biased data can cause unfair AI. [ ]

4. Labels are not needed for training. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Training	____	**(a)** Checking with new data
2. Label	____	**(b)** Learning from examples
3. Testing	____	**(c)** Unfair, one-sided result
4. Bias	____	**(d)** The correct answer tag

E. Answer in one word.

1. What is learning from examples called? _____

2. What tag gives the correct answer? _____

3. What does narrow data cause? _____

F. Answer these questions.

1. What is training data?

2. Why must training data be varied?

G. Case-based questions. Read and answer.

A school trains an AI to recognise students' faces for attendance using photos taken only in the morning sunlight. In the evening class, it fails often.

1. Why does it fail in the evening?

(a) Training data lacked evening light ☐ **(b)** Students changed faces ☐ **(c)** AI is tired ☐

2. This problem is caused by ____ data.

(a) too much ☐ **(b)** narrow ☐ **(c)** secret ☐

3. The best fix is to ____.

(a) switch off lights ☐ **(b)** stop attendance ☐ **(c)** add varied photos ☐

Area: Communicate with AI

🗺️ In this unit, you will explore:

Topic 3

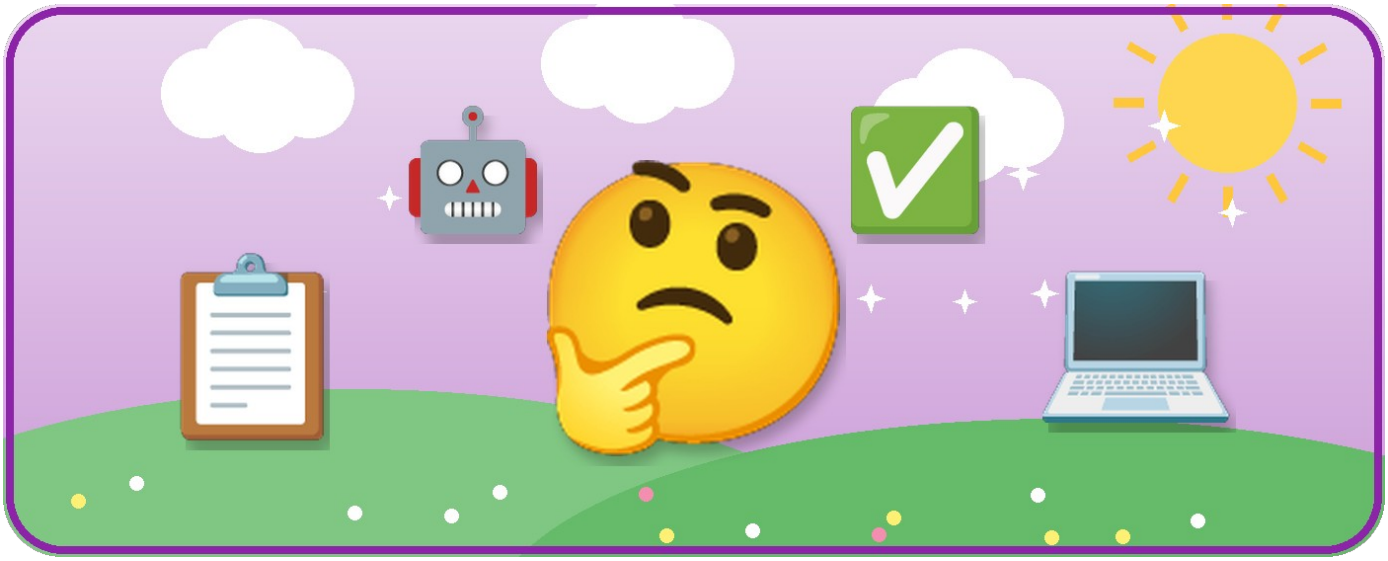
Think → Plan → Code

Topic 4

Coding Made Friendly

TOPIC 3 • MONTH 2 • COMMUNICATE WITH AI

Think → Plan → Code



LET'S LEARN

- Good coders THINK about the problem first.
- Then they PLAN the steps, called an algorithm.
- Only then do they CODE and TEST!

The coder's path

1. Think

2. Plan

3. Code

4. Test

MAGIC WORDS

Algorithm Step-by-step plan

Flowchart Picture of a plan

Test Check if it works

💬 TECH TALK: Think → Plan → Code

💬 GAIO Squad Riya, Kabir, Bolt • online

👦 Kabir

Bolt, I want to code a quiz game 🎮 right now!

10:02

🤖 Bolt

Wait! Great coders THINK first 🤔. What problem does your game solve?

10:04 ✓✓

👦 Kabir

Help classmates revise science 🔬.

10:06

🤖 Bolt

Nice. Now PLAN the steps. A list of steps is called an ALGORITHM 📋.

10:08 ✓✓

👧 Riya

1. Show question. 2. Get answer. 3. Check it. 4. Add score. 5. Next question.

10:10

🤖 Bolt

Perfect algorithm! You can also draw it as a flowchart 🔷.

10:12 ✓✓

Kabir
NOW can I code?
10:14

Bolt
Yes! CODE it, then TEST 🧪. If it breaks, find the bug 🐞 and fix it.
10:16 ✓✓

Riya
Think → Plan → Code → Test. Like a recipe before cooking 🍳!
10:18

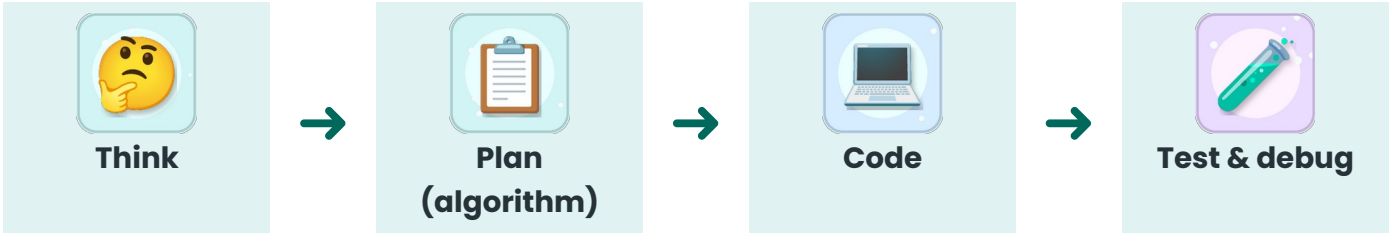
Bolt
Exactly. Planning saves hours of messy code.
10:20 ✓✓

😊 Type a message...

📌 **Pinned by Bolt**

Good coders think about the problem, plan an algorithm, then code and test. Planning first saves time and mistakes.

🔄 How it works



INDIA SPOTLIGHT

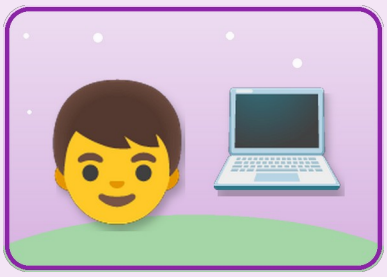
Many Indian schools now introduce coding and computational thinking in middle school under the National Education Policy 2020.

AI CHRONICLES: The Quiz Game That Crashed

Kabir

Riya

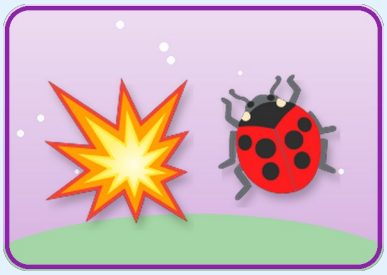
Ms. Fernandes



SCENE 1

Kabir started coding a science quiz game 🎮 immediately. No plan, just code!

After two hours, the game showed the same question forever and scores went negative ➖. Chaos!

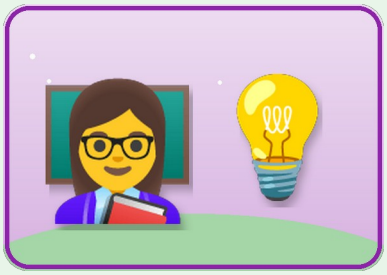


SCENE 2

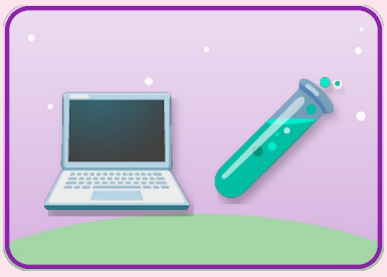
SCENE 3

Riya said, "Let's plan first." They wrote a 5-step algorithm on paper and drew a flowchart 🔷.

Ms. Fernandes pointed out a missing step: 'Go to next question'. That was the bug!



SCENE 4



SCENE 5

They recoded following the plan and tested with 10 classmates. It worked smoothly ✅.

Their quiz game won the school tech fair. Their motto: "Think, plan, code, test!"

SCENE 6

🔮 What happens next? Tick ✓ one!

☐	☐	☐
They add a timer to the quiz	**Kabir codes without planning again**	**The quiz asks itself questions**

🧐 Story check: answer the questions.

1. Why did Kabir's first game crash?

2. What is an algorithm?

3. What step was missing?

Rate this story: shade the stars.

🧪 DEMO LAB: Code.org maze puzzles

Name: _____ Date: _____

🎯 **Goal:** Practise planning an algorithm before coding.

🔗 **Open:** code.org | 👩‍🏫 **With a teacher or parent**

👣 Steps

1		Pick a maze puzzle. Before coding, write the steps on paper.
2		Draw a mini flowchart for your plan.
3		Drag blocks to match your plan.
4		Run the program and watch the character.
5		If it fails, find the wrong step (bug) and fix it.

🔬 Record your observations

Steps in your paper plan:	
Did the first run work? (Yes/No)	
Bug you found and how you fixed it:	

💭 **Reflect:** Did planning on paper first make coding easier? Why?

? QUIZ TIME: Think → Plan → Code

Circle the right answer!

Q1. What do good coders do first?

a) Think

b) Code

c) Sleep

Q2. A step-by-step plan is an...

a) Apple

b) Algorithm

c) Alarm

Q3. A picture of a plan is a...

a) Painting

b) Map

c) Flowchart

Q4. After coding, we...

a) Test

b) Delete

c) Hide

Q5. Who plans every launch step?

a) Monkeys

b) ISRO

c) Toys

MY SCORE: ____ / 5. Shade one star per correct answer.

☆ ☆ ☆ ☆ ☆

✅ TRUE OR FALSE: Think → Plan → Code

Look at the picture. Tick ✓ TRUE or FALSE.

		👍 TRUE	👎 FALSE
	Good coders think first.		
	An algorithm is a step-by-step plan.		
	Testing is not needed.		
	A flowchart is a picture of a plan.		
	ISRO plans every launch step.		
	Coding without a plan is always faster.

EXERCISE: Think → Plan → Code

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. Good coders first ____ about the problem.

(a) think ☐ **(b)** sleep ☐ **(c)** shout ☐

2. A planned list of steps is an ____.

(a) accident ☐ **(b)** algorithm ☐ **(c)** animal ☐

3. A picture of steps with shapes and arrows is a ____.

(a) photo ☐ **(b)** map ☐ **(c)** flowchart ☐

4. After coding, we must ____.

(a) test ☐ **(b)** forget ☐ **(c)** delete ☐

B. Fill in the blanks. Use the word box.

plan bug debugging flowchart

1. Think, ____, code, test.

2. A mistake in code is a ____.

3. Fixing mistakes is ____.

4. A ____ shows steps as shapes.

C. Write T for True and F for False.

1. Planning first saves time. [ ]

2. An algorithm is a type of animal. [ ]

3. Testing helps find bugs. [ ]

4. Good coders never make mistakes. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Think	____	**(a)** Build the program
2. Plan	____	**(b)** Understand the problem
3. Code	____	**(c)** Check and fix bugs
4. Test	____	**(d)** Write the algorithm

E. Answer in one word.

1. What is a list of steps called? _____

2. What do we call a mistake in code? _____

3. What comes after code? _____

F. Answer these questions.

1. Why should coders plan before coding?

2. Write an algorithm for brushing your teeth.

G. Case-based questions. Read and answer.

Kabir's quiz game kept showing the same question again and again. After checking the flowchart, Riya found the step 'go to next question' was missing.

1. The missing step is an example of a ____.

(a) bug ☐ **(b)** feature ☐ **(c)** virus ☐

2. What helped find it?

(a) Guessing ☐ **(b)** The flowchart ☐ **(c)** Restarting the PC ☐

3. What should they do next?

(a) Give up ☐ **(b)** Delete everything ☐ **(c)** Fix and test again ☐

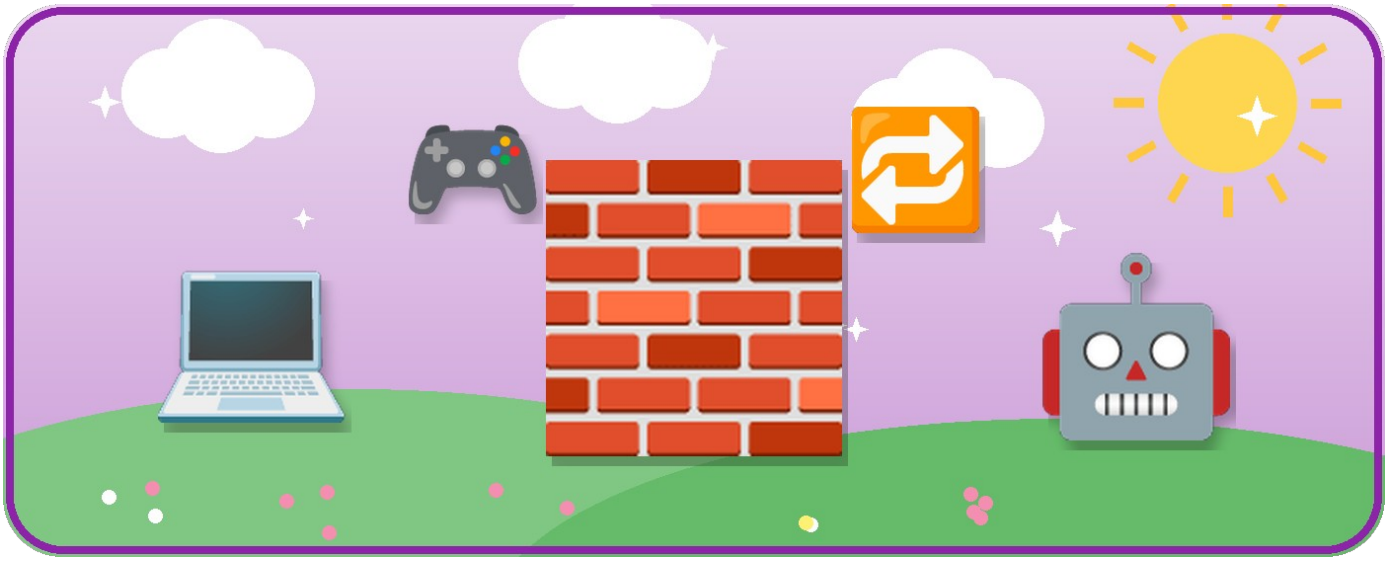
Coding Made Friendly



LET'S LEARN

- Block coding lets you code by snapping blocks together.
- Blocks can MOVE, REPEAT (loop), and DECIDE (if-then).
- You can make games, stories and animations!

Friendly code blocks

Move

Repeat

If-Then

Sound

MAGIC WORDS

Block A piece of code

Loop Repeat steps

Debug Fix mistakes

💬 TECH TALK: Coding Made Friendly

💬 GAIO Squad Riya, Kabir, Bolt • online

👧 Riya
Bolt, typing code looks scary 😰.
10:02

🤖 Bolt
Try BLOCK CODING! You snap colourful blocks together like puzzle pieces 🧩.
10:04 ✓✓

👦 Kabir
What can blocks do?
10:06

🤖 Bolt
MOVE blocks make characters move 👣. REPEAT blocks make loops 🔁. IF blocks make decisions ❓.
10:08 ✓✓

👧 Riya
Like: repeat 10, move 10 steps?
10:10

🤖 Bolt
Yes! And 'IF touching wall, THEN bounce' ↩️.
10:12 ✓✓

👦 Kabir
Can we make real games?
10:14

Bolt

Games, stories, animations, even music 🎵! Scratch has millions of projects shared by students worldwide.

10:16 ✓✓

Riya

And later we can move to typed code like Python 🐍?

10:18

Bolt

Exactly! Blocks build the logic; text code comes next.

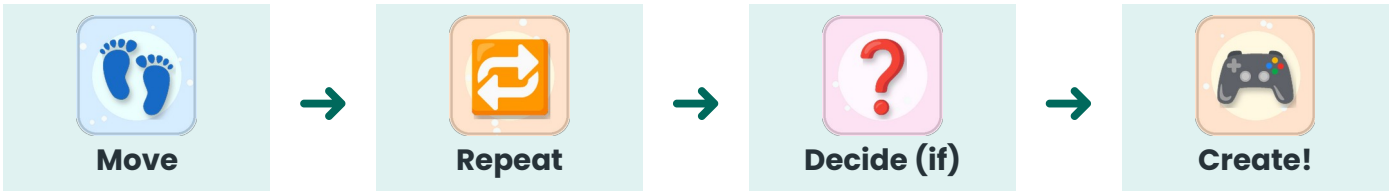
10:20 ✓✓

😊 Type a message...

📌 **Pinned by Bolt**

Block coding lets you code by snapping blocks. Blocks can move, repeat (loop) and decide (if-then) to make games and animations.

🔄 How it works



INDIA SPOTLIGHT

Scratch, from MIT, is used by students in more than 150 countries and is available in Indian languages too.

AI CHRONICLES: The Bouncing Cat Animation

Riya

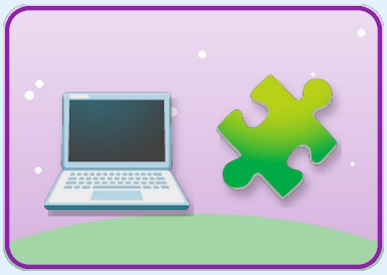
Grandma

Scratch cat

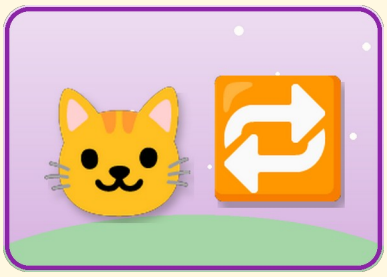
SCENE 1

Riya wanted to make a birthday animation for Grandma 🎂, but she had never coded before.

She opened Scratch and snapped her first blocks: 'when green flag clicked', 'move 10 steps'.



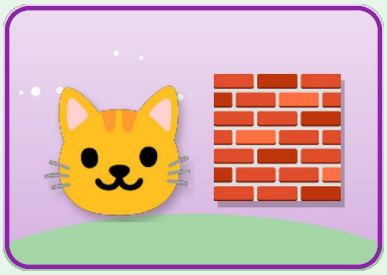
SCENE 2



SCENE 3

The cat moved only once. She added a 'repeat 20' loop. The cat walked across the screen 👣!

But the cat vanished off the edge! She added 'if on edge, bounce' ↩️. Now it bounced happily.

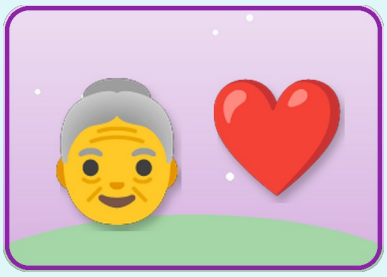


SCENE 4

SCENE 5

She added balloons, a birthday song and the message 'Happy Birthday, Grandma!' 🎉.

Grandma watched it five times. "You made this with code? Teach me too!" Riya grinned 😊.



SCENE 6

🔮 What happens next? Tick ✓ one!

☐ **Riya teaches Grandma block coding**	☐ **Riya deletes her project**	☐ **The cat runs away**

🧐 Story check: answer the questions.

1. Which block made the cat walk across the screen?

2. How did Riya stop the cat vanishing?

3. What did Riya make for Grandma?

Rate this story: shade the stars.

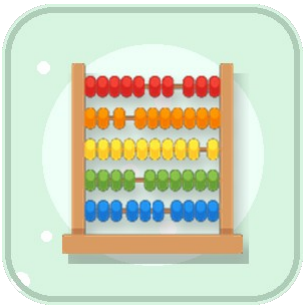
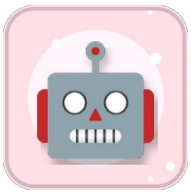
Robot programs



Maths quizzes



BOLT SAYS:

Blocks are like LEGO for code. Snap, run, fix, repeat!

FUN FACT!

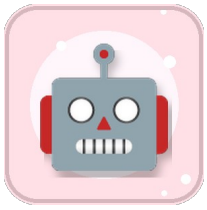
Millions of children around the world learn coding with block-based tools!

I spy AI! Draw one AI helper you saw today.

LET'S DO IT! Paper Block Coding

You need:

Paper blocks



A "robot" friend

A target toy

Steps:

1

Cut paper blocks: MOVE, TURN, REPEAT.

2

Snap them in order on the desk.

3

Your robot friend follows the blocks.

4

Missed the toy? Debug your blocks!

THINK & TALK

How did a REPEAT block make your code shorter?

Draw what you did!

WORKSHEET: Coding Made Friendly (Part A)

Name: _____ Date: _____

1. Code Bolt to the star! Write 8 arrows.

Bolt can move → ← or ↑

Avoid rocks and trees!

Hint: Bolt needs 8 moves.

2. Make it a loop! Use the word box.

WORD BOX: 3 ✿ 4 ✿ 5

Move Move Move Move Move = repeat Move ____ times

Clap Clap Clap = repeat Clap ____ times

Turn Turn Turn Turn = repeat Turn ____ times

3. Bonus: Draw your favourite picture from this topic!

I drew _____

WORKSHEET: Coding Made Friendly (Part B)

Name: _____ Date: _____

1. Match the block to what it does.

Move ●

● Makes a decision

Repeat ●

● Plays a noise

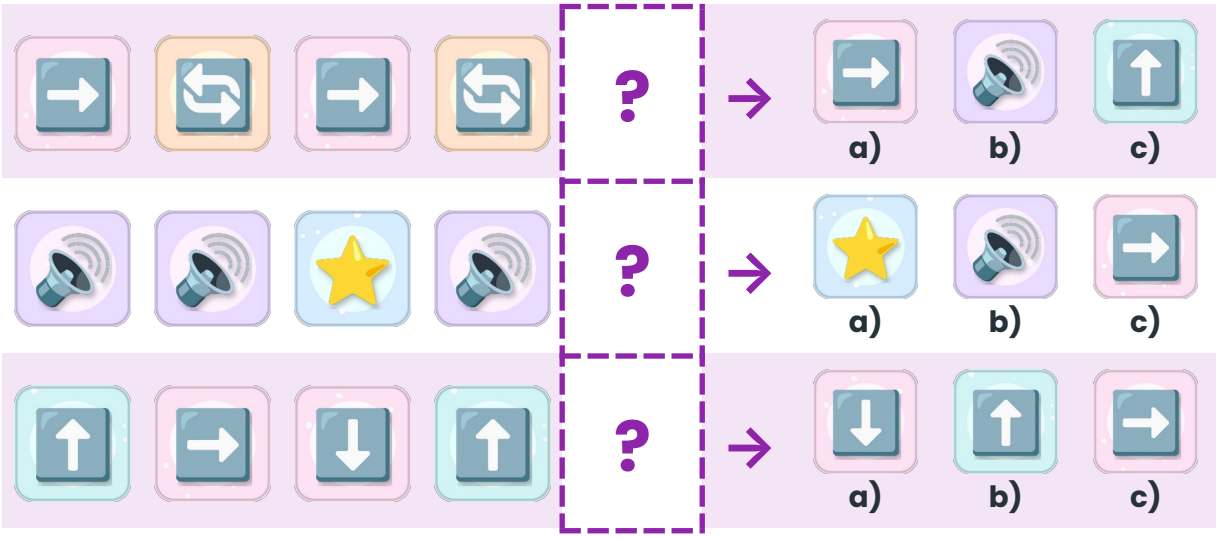
If-Then ●

● Goes forward

Sound ●

● Does steps again

2. Find the code pattern. Circle what comes next.



PUZZLE FUN: Coding Made Friendly

Name: _____ Date: _____

1. Odd one out! Circle it and justify your choice.

A				
B				
C				

2. Define it! Write each term in your own words with an example.

Block

Meaning: _____

Example: _____

Loop

Meaning: _____

Example: _____

Debug

Meaning: _____

Example: _____

🧪 DEMO LAB: Scratch

Name: _____ Date: _____

🎯 **Goal:** Make a sprite bounce around the stage using loops and if-then.

🔗 **Open:** scratch.mit.edu | 👩‍🏫 **With a teacher or parent**

👣 Steps

1. Open Scratch > Create. Use the cat sprite.
2. Add 'when green flag clicked'.
3. Add 'forever' and put 'move 10 steps' inside.
4. Add 'if on edge, bounce' inside the loop.
5. Bonus: add 'if touching mouse-pointer, play sound Meow'.

🔬 Record your observations

What happened without the bounce block?	
What changed when you used 'move 20 steps'?	
Your own new idea:	

💭 **Reflect:** Which block is the loop and which is the decision in your program?

? QUIZ TIME: Coding Made Friendly

Circle the right answer!

Q1. Block coding is like...

a) LEGO for code

b) Cooking soup

c) Rain

Q2. A block that repeats is a...

a) Balloon

b) Loop

c) Stop

Q3. An IF-THEN block helps code...

a) Sleep

b) Paint

c) Decide

Q4. Fixing mistakes is...

a) Debugging

b) Sweeping

c) Singing

Q5. With blocks you can make...

a) Volcanoes

b) Games

c) Moons

MY SCORE: ____ / 5. Shade one star per correct answer.

☆ ☆ ☆ ☆ ☆

✅ TRUE OR FALSE: Coding Made Friendly

Look at the picture. Tick ✓ TRUE or FALSE.

		👍 TRUE	👎 FALSE
	Block coding is like LEGO for code.		
	A loop repeats steps.		
	An IF-THEN block makes decisions.		
	Debugging means adding mistakes.		
	Kids can make games with blocks.		
	Code blocks can make real volcanoes.

I know it well!

I know some.

I need practice.

EXERCISE: Coding Made Friendly

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. Block coding works by snapping ____.

(a) blocks ☐ **(b)** pencils ☐ **(c)** bricks only ☐

2. A REPEAT block makes a ____.

(a) decision ☐ **(b)** loop ☐ **(c)** sound ☐

3. An IF block helps the program ____.

(a) sleep ☐ **(b)** paint ☐ **(c)** decide ☐

4. Scratch was created by ____.

(a) MIT ☐ **(b)** a bakery ☐ **(c)** a cricket team ☐

B. Fill in the blanks. Use the word box.

loop **decisions** **sprites** **text**

1. A ____ repeats steps.

2. IF-THEN blocks make ____.

3. Characters in Scratch are ____.

4. After blocks, we can learn ____ code like Python.

C. Write T for True and F for False.

1. Block coding needs no typing. [ ]

2. A loop runs only once. [ ]

3. Scratch can make animations. [ ]

4. IF blocks help programs decide. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Move block	____	**(a)** Makes a decision
2. Repeat block	____	**(b)** Moves a sprite
3. If block	____	**(c)** Plays music
4. Sound block	____	**(d)** Makes a loop

E. Answer in one word.

1. Which block makes a loop? _____

2. What are Scratch characters called? _____

3. Name a text coding language. _____

F. Answer these questions.

1. What can you create with block coding?

2. Explain loop and decision with one example each.

G. Case-based questions. Read and answer.

Riya's Scratch cat moved once and stopped. When she added a 'repeat 20' block, it walked across the screen but disappeared at the edge.

1. Which block made it walk across?

(a) Repeat ☐ **(b)** Sound ☐ **(c)** Paint ☐

2. Why did it disappear?

(a) The cat was tired ☐ **(b)** No 'bounce on edge' block ☐ **(c)** The computer froze ☐

3. Which block fixes it?

(a) Play sound ☐ **(b)** Change colour ☐ **(c)** If on edge, bounce ☐

AI on the Road

LET'S LEARN

- AI helps make our roads safer and faster.
- Cameras and sensors watch traffic. AI decides what to do.
- But humans must still follow road rules!

Smart road helpers

Smart signals

Traffic cameras

Route apps

Auto brakes

MAGIC WORDS

Sensor Detects things

Traffic Vehicles on roads

Safety Staying free from harm

💬 TECH TALK: AI on the Road

💬 GAIO Squad Riya, Kabir, Bolt • online

👦 Kabir
Traffic was terrible today 🚗🚕🚙! Can AI help?
10:02

🤖 Bolt
Yes! Cameras 📷 and sensors watch traffic. AI decides how to adjust signals 🚦.
10:04 ✓✓

👧 Riya
Smart signals?
10:06

🤖 Bolt
Adaptive signals give more green time to busy roads. Less waiting, less fuel ⛽.
10:08 ✓✓

👦 Kabir
And map apps 🗺️ show red roads for jams.
10:10

🤖 Bolt
They use location data from many phones to estimate speed and suggest faster routes.
10:12 ✓✓

👧 **Riya**

Can AI catch rule breakers?

10:14

🤖 **Bolt**

Some cities use AI cameras to detect red-light jumping or no helmet ⛑️.

10:16 ✓✓

👦 **Kabir**

So with AI, rules don't matter?

10:18

🤖 **Bolt**

No way! Humans must still follow road rules. AI supports safety; people create it 🦺.

10:20 ✓✓

😊 Type a message...

📌 **Pinned by Bolt**

AI uses cameras and sensors to manage traffic, suggest routes and improve safety, but people must still follow road rules.

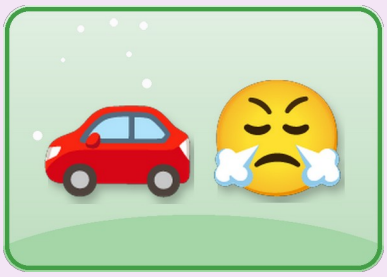
🔄 How it works

INDIA SPOTLIGHT

Several Indian cities, including Bengaluru, have tested AI-based adaptive traffic signals to reduce waiting time at junctions.

AI CHRONICLES: Signal Smart

Kabir | Traffic Officer Meena | Bolt

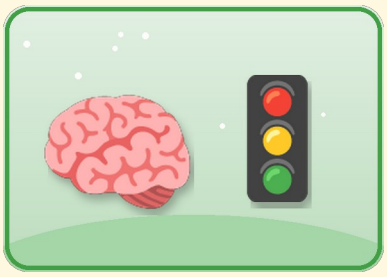


SCENE 1

The junction near Kabir's school was always jammed 🚦. Buses waited 10 minutes every morning.

Officer Meena explained that the city was testing an AI signal. Cameras counted vehicles on each road.

SCENE 2



SCENE 3

When the main road was busy, the AI gave it longer green time 🟢. Empty roads got shorter greens.

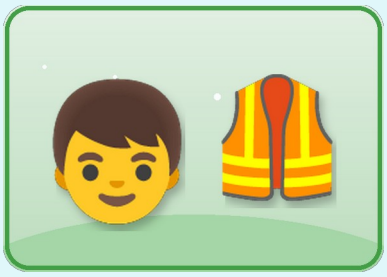
In a month, average waiting time dropped. Kabir's bus reached school on time 🚌.

SCENE 4

SCENE 5

But one day a biker without a helmet jumped the red light. The AI camera recorded it 📸.

"AI helps," said Officer Meena, "but safety depends on people following rules." Kabir nodded.



SCENE 6

🔮 What happens next? Tick ✓ one!

☐ **Kabir makes a road-safety poster**	☐ **The AI drives the bus**	☐ **Everyone ignores the signals**

🧐 Story check: answer the questions.

1. How did the AI decide green time?

2. What improved after a month?

3. What did Officer Meena say about safety?

Rate this story: shade the stars.

EXERCISE: AI on the Road

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. AI traffic systems use ____ to watch traffic.

(a) cameras ☐ **(b)** spoons ☐ **(c)** kites ☐

2. Adaptive signals give more green time to ____ roads.

(a) empty ☐ **(b)** busy ☐ **(c)** closed ☐

3. Map apps suggest ____ routes.

(a) slower ☐ **(b)** longer ☐ **(c)** faster ☐

4. Even with AI, people must follow ____.

(a) road rules ☐ **(b)** no rules ☐ **(c)** only maps ☐

B. Fill in the blanks. Use the word box.

waiting fuel location helmet

1. AI signals reduce ____ time.

2. Less waiting saves ____.

3. Map apps use ____ data from phones.

4. Wear a ____ on a bike.

C. Write T for True and F for False.

1. AI can help reduce traffic jams. [ ]

2. With AI, road rules are not needed. [ ]

3. Map apps can show traffic jams. [ ]

4. AI cameras can detect rule breaking. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Camera	____	(a) Suggests routes
2. Adaptive signal	____	(b) Watches traffic
3. Map app	____	(c) Protects riders
4. Helmet	____	(d) Changes green time

E. Answer in one word.

1. What device watches traffic? _____
2. What does less waiting save? _____
3. What must riders wear? _____

F. Answer these questions.

1. How do adaptive traffic signals work?

2. Why must people follow rules even with AI?

G. Case-based questions. Read and answer.

A city installed AI signals at a busy junction. Cameras count vehicles, and the busiest road gets longer green time. After a month, waiting time fell by 20%.

1. What do the cameras count?

(a) Vehicles ☐ **(b)** Birds ☐ **(c)** Trees ☐

2. Which road gets more green time?

(a) The emptiest ☐ **(b)** The busiest ☐ **(c)** A random one ☐

3. What is one benefit?

(a) More noise ☐ **(b)** More jams ☐ **(c)** Less waiting time ☐

AI on the Farm

LET'S LEARN

- Farmers grow the food we eat.
- AI helps them know the weather, soil and plant health.
- Smart farming saves water and grows more food!

Smart farm helpers

Drones

Weather app

Leaf scanner

Smart watering

MAGIC WORDS

Crop Plants grown for food

Pest Insect that harms crops

Soil Earth where plants grow

💬 TECH TALK: AI on the Farm

💬 GAIO Squad Riya, Kabir, Bolt • online

👧 Riya
My uncle is a farmer 👨‍🌾. He worries about rain and pests.
10:02

🤖 Bolt
AI can help! It predicts weather 🌦️ so farmers know when to sow and spray.
10:04 ✓✓

👦 Kabir
What about pests 🐛?
10:06

🤖 Bolt
Farmers can photograph a leaf 🍃. AI apps detect diseases and suggest treatment.
10:08 ✓✓

👧 Riya
And the soil 🟫?
10:10

🤖 Bolt
Sensors measure soil moisture. AI says exactly when to water. Smart irrigation saves water 💧!
10:12 ✓✓

Kabir

Drones 🚁 too?

10:14

Bolt

Yes! Drones scan fields and spray only where needed.

10:16 ✓✓

Riya

So farmers grow more with less?

10:18

Bolt

Exactly! More food 🌾, less waste, and farmers' experience still guides every decision.

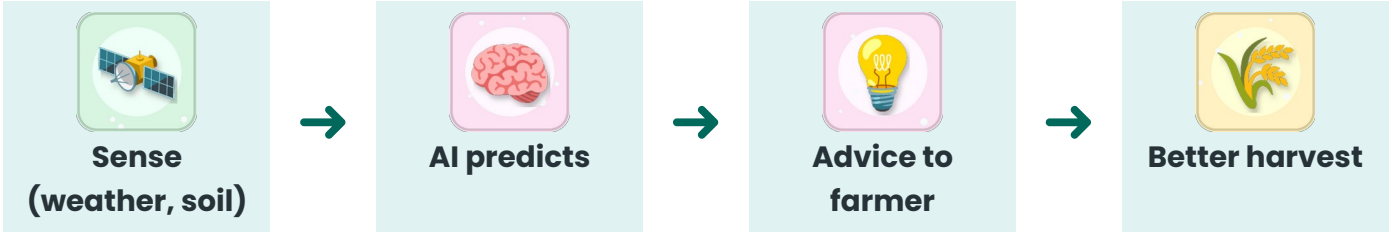
10:20 ✓✓

😊 Type a message...

📌 **Pinned by Bolt**

AI helps farmers with weather forecasts, pest detection and smart irrigation, saving water and growing more food.

🔄 How it works

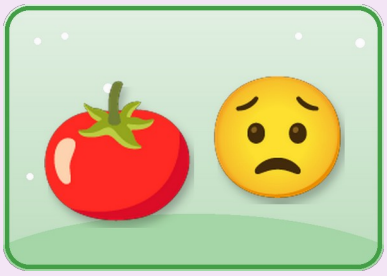


INDIA SPOTLIGHT

India's Kisan Drone initiative promotes drones for crop spraying and field monitoring, and AI-based crop advisories reach farmers by phone.

AI CHRONICLES: The Leaf Doctor

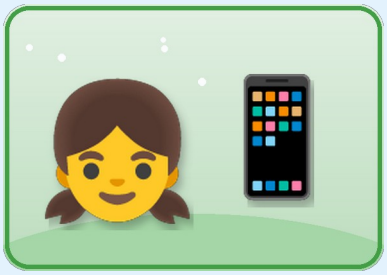
Riya | Uncle Ravi | Crop app



SCENE 1

Brown spots appeared on Uncle Ravi's tomato plants 🍅. He feared he would lose the crop.

Riya photographed a leaf with a crop-advisory app. It suggested 'early blight' and a treatment 💊.



SCENE 2

SCENE 3

Uncle Ravi showed it to the local agriculture officer, who confirmed the AI's suggestion ✅.

The app also showed rain coming in 2 days 🌧️. They sprayed today so rain wouldn't wash it away.

SCENE 4

SCENE 5

Soil sensors told them exactly when to water. They used much less water than before 💧.

The harvest was healthy and big! "AI was my helper," said Uncle Ravi, "but experience decided."

SCENE 6

🔮 What happens next? Tick ✓ one!

☐ **Riya helps other farmers use the app**	☐ **Uncle Ravi stops farming**	☐ **The tomatoes call the app**

🧐 Story check: answer the questions.

1. What problem did the tomato plants have?

2. Who confirmed the AI's suggestion?

3. How did the app help save water?

Rate this story: shade the stars.

Plant 2 (AI's answer / correct?):	
Blurry photo result:	

💭 **Reflect:** How could a farmer use a similar app to spot crop disease?

? QUIZ TIME: AI on the Farm

Circle the right answer!

Q1. Who grows our food?

a) Farmers

b) Singers

c) Pilots

Q2. Drones on farms can...

a) Cook rice

b) Check fields

c) Paint cows

Q3. Smart watering saves...

a) Sweets

b) Toys

c) Water

Q4. An insect that harms crops is a...

a) Pest

b) Pet

c) Helper

Q5. AI can predict...

a) Dice

b) Rain

c) Birthdays

MY SCORE: _____ / 5. Shade one star per correct answer.

☆ ☆ ☆ ☆ ☆

✅ TRUE OR FALSE: AI on the Farm

Look at the picture. Tick ✓ TRUE or FALSE.

	👍 TRUE	👎 FALSE
Farmers grow our food.		
Drones can check big fields.		
Smart watering wastes water.		
A pest harms crops.		
AI can predict rain.		
AI replaces all farmers.		

HOME CONNECT

Find out from your family which crops grow near your town. Draw one!

🔢 Self-assessment: tick one.

😀	🙂	😐
I know it well!	I know some.	I need practice.

EXERCISE: AI on the Farm

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. AI helps farmers predict the ____.

(a) weather ☐ **(b)** movies ☐ **(c)** cricket score ☐

2. Photographing a leaf can help detect ____.

(a) music ☐ **(b)** disease ☐ **(c)** traffic ☐

3. Soil sensors measure ____.

(a) noise ☐ **(b)** speed ☐ **(c)** moisture ☐

4. Smart irrigation saves ____.

(a) water ☐ **(b)** paper ☐ **(c)** toys ☐

B. Fill in the blanks. Use the word box.

Drones **treatment** **water** **experience**

1. ____ scan fields from the sky.

2. AI suggests ____ for plant disease.

3. Sensors tell when to ____.

4. Farmers' ____ still guides decisions.

C. Write T for True and F for False.

1. AI can help detect crop disease. [ ]

2. Smart irrigation wastes water. [ ]

3. Drones can spray crops. [ ]

4. Farmers are not needed with AI. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Weather forecast	____	**(a)** Measures moisture
2. Leaf photo app	____	**(b)** When to sow
3. Soil sensor	____	**(c)** Scans fields
4. Drone	____	**(d)** Detects disease

E. Answer in one word.

1. What flies over fields? _____

2. What does a soil sensor measure? _____

3. What does smart irrigation save? _____

F. Answer these questions.

1. Name three ways AI helps farmers.

2. Why should experts confirm AI's crop advice?

G. Case-based questions. Read and answer.

A farmer photographs spotted tomato leaves. The app suggests 'early blight'. The agriculture officer confirms it. The app also warns of rain in 2 days.

1. What did the app identify?

(a) A plant disease ☐ **(b)** A bird ☐ **(c)** A tractor ☐

2. Who confirmed it?

(a) A neighbour's pet ☐ **(b)** The agriculture officer ☐ **(c)** Nobody ☐

3. Why spray before rain?

(a) Rain makes it stronger ☐ **(b)** To use more spray ☐ **(c)** So rain doesn't wash it away ☐

H. THINK DEEPER

How can smart farming help India produce more food with less water?

UNIT REVIEW: AI SOLVE

Name: _____ Date: _____

Circle the right answer!

Q1. Smart signals give green to...

a) Busy roads

💬 TECH TALK: Explore Tech Careers

💬 **GAIO Squad** Riya, Kabir, Bolt • online

👧 **Riya**
Bolt, which tech careers are there? I only know 'software engineer' 💻.
10:02

🤖 **Bolt**
So many! Some BUILD, some DESIGN, some PROTECT, some RESEARCH 🔬.
10:04 ✓✓

👦 **Kabir**
Who builds?
10:06

🤖 **Bolt**
Software developers, robotics engineers 🤖 and app makers build products.
10:08 ✓✓

👧 **Riya**
Designers?
10:10

🤖 **Bolt**
UX designers 🎨 plan how apps look and feel; game designers 🎮 build game worlds.
10:12 ✓✓

Kabir

Protect sounds cool 🛡️!

10:14

Bolt

Cybersecurity experts stop hackers. Privacy officers protect people's data.

10:16 ✓✓

Riya

And research?

10:18

Bolt

AI scientists 👩‍🔬 invent new methods; data scientists 📊 find insights.

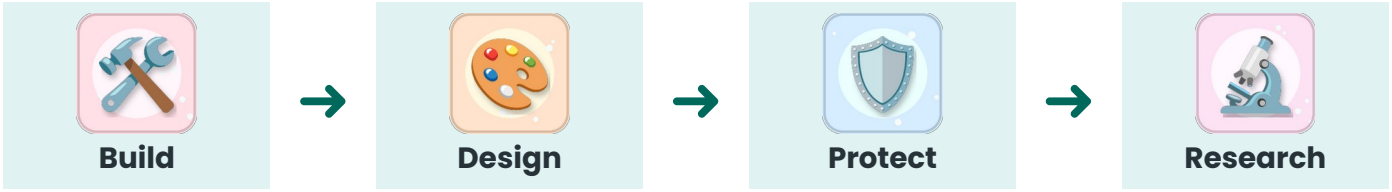
10:20 ✓✓

😊 Type a message...

📌 **Pinned by Bolt**

Technology has many careers: builders, designers, protectors and researchers. Each needs different skills and continuous learning.

🔄 How it works



INDIA SPOTLIGHT

India has one of the world's largest technology workforces, and many global tech companies run major research and development centres in Indian cities.

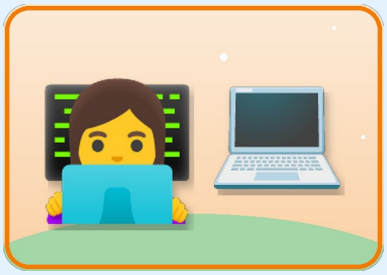
AI CHRONICLES: Career Day Detectives

Riya Kabir Aunt Priya

SCENE 1

Career Day! Riya and Kabir had to find the 'secret jobs' behind a single phone app 📱.

Aunt Priya, a software developer, explained, "I build the app's features with code."



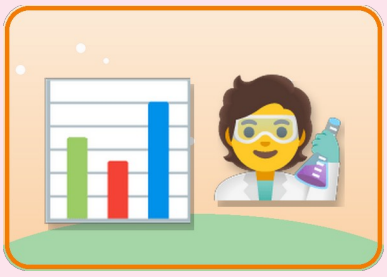
SCENE 2

SCENE 3

Her colleague, a UX designer, showed sketches. "I make sure the app is easy for grandparents too 👵."

Next, a cybersecurity expert showed how she stops hackers from stealing passwords 🔑.

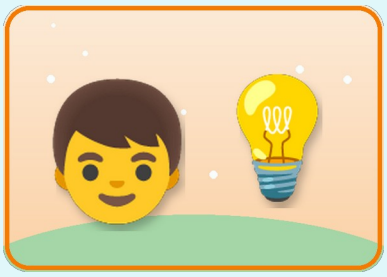
SCENE 4



SCENE 5

A data scientist explained, "I study how people use the app to make it better."

"One app, so many careers!" said Kabir. Riya wrote: 'Build, design, protect, research.' 🌟



SCENE 6

🔮 What happens next? Tick ✓ one!

☐	☐	☐
They interview more professionals	**They decide careers are boring**	**The app interviews them**

🧐 Story check: answer the questions.

1. What does a UX designer do?

2. Who protects the app from hackers?

3. Name the four career groups.

Rate this story: shade the stars.

Invent a new tech job for the year 2040 and describe what that person does.

TOPIC 8 • MONTH 4 • AI & CAREER

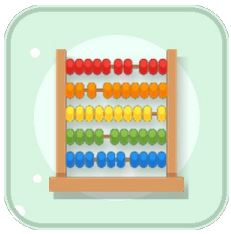
Discover Your Skills

LET'S LEARN

- Skills are things you can learn and improve.
- Hard skills: coding, maths. Soft skills: teamwork, speaking.
- Know your strengths, then grow them!

Two kinds of skills

Coding (hard)



Maths (hard)

Teamwork (soft)

Speaking (soft)

MAGIC WORDS

Hard skill A technical skill

Soft skill A people skill

Strength What you do well

💬 TECH TALK: Discover Your Skills

💬 **GAIO Squad** Riya, Kabir, Bolt • online

👦 **Kabir**

Bolt, how do I know what I'm good at 🤔?

10:02

🤖 **Bolt**

Start by knowing two kinds of skills: HARD skills and SOFT skills.

10:04 ✓✓

👧 **Riya**

Hard skills are difficult?

10:06

🤖 **Bolt**

Ha ha, no! Hard skills are specific abilities you can measure, like coding 💻 or maths 🔢.

10:08 ✓✓

👦 **Kabir**

And soft skills?

10:10

🤖 **Bolt**

People skills: teamwork 🤝, speaking 🎤, listening 👂 and problem-solving.

10:12 ✓✓

👧 **Riya**

Which is more important?

10:14

🤖 **Bolt**

Both! The best innovators combine hard and soft skills ⚖️.

10:16 ✓✓

👦 **Kabir**

How do I grow them?

10:18

🤖 **Bolt**

Know your strengths, practise a little daily 📅, ask for feedback and try new challenges 🚀.

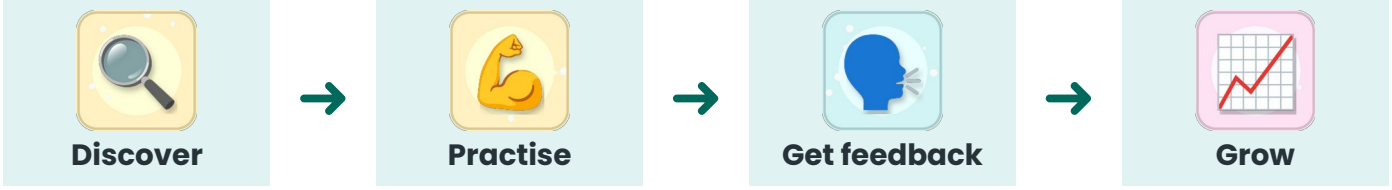
10:20 ✓✓

😊 Type a message...

📌 **Pinned by Bolt**

Skills can be learnt and improved. Hard skills (coding, maths) and soft skills (teamwork, speaking) together make you strong.

🔄 How it works



INDIA SPOTLIGHT

I need practice.

EXERCISE: AI Learning Lab

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. AI learning tools can ____ topics.

(a) explain ☐ **(b)** eat ☐ **(c)** hide ☐

2. AI tools can ____ long chapters.

(a) burn ☐ **(b)** summarise ☐ **(c)** lose ☐

3. We should check AI answers with our ____.

(a) shoes ☐ **(b)** games ☐ **(c)** textbook ☐

4. A specific question gives ____ answers.

(a) better ☐ **(b)** worse ☐ **(c)** no ☐

B. Fill in the blanks. Use the word box.

translate **revise** **think** **mistakes**

1. AI can ____ into many languages.

2. Summaries help us ____.

3. You must still ____ for yourself.

4. AI can make ____.

C. Write T for True and F for False.

1. AI summaries can replace reading completely. [ ]

2. AI tools can make quizzes. [ ]

3. We should check AI answers. [ ]

4. Vague questions give the best answers. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Explain	____	**(a)** Change language
2. Quiz	____	**(b)** Simple words and examples
3. Translate	____	**(c)** Short key points
4. Summarise	____	**(d)** Practice questions

E. Answer in one word.

1. What should we check AI answers with? _____

2. What makes long text short? _____

3. Can AI be wrong? _____

F. Answer these questions.

1. Name four ways AI tools help learning.

2. Write a good, specific question for an AI tool.

G. Case-based questions. Read and answer.

Riya asked an AI tool to explain fractions with pizza. She practised 5 questions. One AI answer differed from her textbook; her teacher confirmed the AI was wrong.

1. How did the AI explain fractions?

(a) With a pizza example ☐ **(b)** With music ☐ **(c)** With a dance ☐

2. What did Riya do when answers differed?

(a) Ignored it ☐ **(b)** Checked with her teacher ☐ **(c)** Copied the AI ☐

3. The lesson is _____.

(a) AI is always right ☐ **(b)** Never use AI ☐ **(c)** Use AI but verify ☐

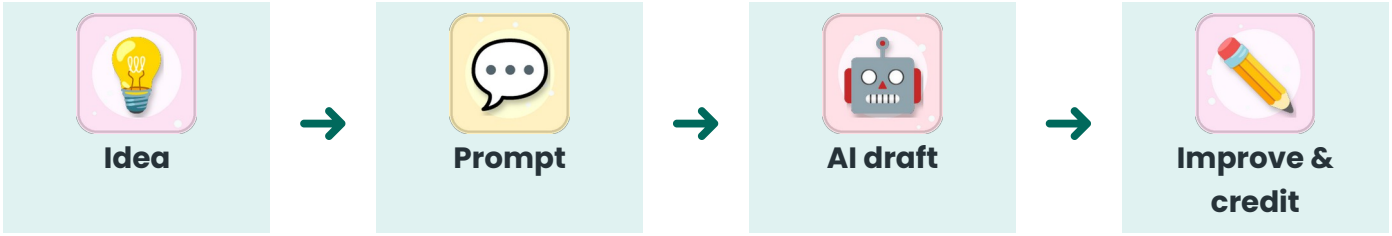
📌 **Pinned by Bolt**

Generative AI creates text, pictures and music from prompts. You give the idea, improve the draft, add your style and give credit.

🔄 How it works



INDIA SPOTLIGHT

Indian artists and musicians are experimenting with AI tools to create new art forms, while debating fair credit and copyright.

AI CHRONICLES: The Poster Prompt Contest

Kabir Riya Art teacher

SCENE 1

The school held a 'Save Water' poster contest 💧. AI tools were allowed, with credit.

Kabir typed a short prompt: 'water poster'. The result was boring and plain 😐.

SCENE 2

SCENE 3

Riya wrote: 'Colourful poster of a child catching raindrops in a pot, Indian village, bright and hopeful.' Much better 🌈!

They added hand-drawn borders, a Tamil slogan and their own water-saving tips 📝.

SCENE 4

SCENE 5

On the poster they wrote: 'Image drafted with AI; slogan, tips and design by Riya and Kabir.'

They won 'Best Creative Use of AI'. The judges praised the honest credit as much as the art.

SCENE 6

🔮 What happens next? Tick ✓ one!

☐	☐	☐
They make a poster on saving electricity	**They hide that AI helped**	**The poster rains on the stage**

🧐 Story check: answer the questions.

1. Why was Kabir's first result boring?

2. What did they add themselves?

3. Why did the judges praise their credit line?

Rate this story: shade the stars.

🧪 DEMO LAB: AutoDraw

Name: _____ Date: _____

🎯 **Goal:** See how AI turns rough doodles into neat drawings.

🔗 **Open:** autodraw.com | 👩‍🏫 **With a teacher or parent**

👣 Steps

1		Open AutoDraw with your teacher.
2		Doodle a simple object (sun, cycle, house).
3		Look at the AI's suggestions in the top bar and pick one.
4		Add colours and your own hand-drawn details.
5		Label your poster: 'Made with help from AutoDraw'.

🔬 Record your observations

Object you drew:	
Did AI guess correctly first time?	
What you added yourself:	

💭 **Reflect:** Who is the real creator of your poster: you, the AI or both? Explain.

? QUIZ TIME: Create with AI

Circle the right answer!

Q1. AI that creates new things is...

a) Generative

b) Cleaning

c) Sleeping

Q2. A first version is a...

a) Finish

b) Draft

c) Cake

Q3. Who makes the draft amazing?

a) A plug

b) A battery

c) Me!

Q4. When AI helps, I give...

a) Credit

b) Nothing

c) Lies

Q5. To ask AI to create, I write a...

a) Balloon

b) Prompt

c) Sock

MY SCORE: ____ / 5. Shade one star per correct answer.

✅ TRUE OR FALSE: Create with AI

Look at the picture. Tick ✓ TRUE or FALSE.

	👍 TRUE	👎 FALSE
Generative AI can create pictures.		
A draft is the final version.		
I give credit when AI helps.		
I give my idea in a prompt.		
I should hide AI help.		
I can improve an AI draft.		

HOME CONNECT

Create a family greeting card. Mark which parts you made and which AI helped with.

🔢 Self-assessment: tick one.

I know it well!

I know some.

I need practice.

EXERCISE: Create with AI

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. AI that creates new content is ____ AI.

(a) generative ☐ **(b)** sleeping ☐ **(c)** broken ☐

2. The words we give AI are called a ____.

(a) poem ☐ **(b)** prompt ☐ **(c)** password ☐

3. AI's first output is a ____.

(a) final answer ☐ **(b)** secret ☐ **(c)** draft ☐

4. When AI helps, we should give ____.

(a) credit ☐ **(b)** nothing ☐ **(c)** a fake name ☐

B. Fill in the blanks. Use the word box.

prompt **improve** **style** **art**

1. A detailed ____ gives better results.

2. We ____ the AI draft.

3. Add your own ____.

4. Never copy others' ____.

C. Write T for True and F for False.

1. Generative AI can create music. [ ]

2. AI drafts are always perfect. [ ]

3. We should credit AI help. [ ]

4. Making fake photos of real people is OK. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Idea	____	**(a)** AI's first output
2. Prompt	____	**(b)** Comes from you
3. Draft	____	**(c)** Saying AI helped
4. Credit	____	**(d)** Instructions to AI

E. Answer in one word.

1. What do we call instructions given to AI? _____

2. What is AI's first output? _____

3. What must we give when AI helps? _____

F. Answer these questions.

1. Write a detailed prompt for a poster on saving electricity.

2. Why should we give credit when AI helps?

G. Case-based questions. Read and answer.

Kabir typed 'water poster' and got a plain result. Riya typed a detailed prompt about a child catching raindrops in a village. They added their own slogan and credited AI.

1. Why was Kabir's result plain?

(a) His prompt was too short ☐ **(b)** AI was sleeping ☐ **(c)** The internet was slow ☐

2. What improved the result?

(a) A shorter prompt ☐ **(b)** A detailed prompt ☐ **(c)** No prompt ☐

3. Their credit line shows _____.

(a) laziness ☐ **(b)** copying ☐ **(c)** honesty ☐

🧪 DEMO LAB: Reverse image search (with teacher)

Name: _____ Date: _____

🎯 **Goal:** Check where a viral image really came from.

🔗 **Open:** Google Lens / images.google.com | 👩‍🏫 **With a teacher or parent**

👣 Steps

1		Your teacher shares a 'viral' image (e.g., shark on a highway).
2		Upload it to a reverse image search.
3		Find the earliest date and original source.
4		Compare with trusted news or fact-check sites.
5		Decide: real, fake or misleading? Give reasons.

🔬 Record your observations

Earliest source found:	
What trusted sites said:	
Your verdict and reason:	

💭 **Reflect:** Why is it dangerous to forward images without checking?

? QUIZ TIME: Think Before You Trust

Circle the right answer!

Q1. Is everything online true?

a) No

b) Yes, always

c) Only on Sundays

Q2. Fake AI photos and voices are...

a) Dinosaurs

b) Deepfakes

c) Cakes

Q3. Where info comes from is the...

a) Sea

b) Balloon

c) Source

Q4. "You won a prize!" message. You...

a) Check first

b) Click fast

c) Forward it

Q5. Verify means...

a) Sleep

b) Check if true

c) Run

MY SCORE: ____ / 5. Shade one star per correct answer.

☆ ☆ ☆ ☆ ☆

✅ TRUE OR FALSE: Think Before You Trust

Look at the picture. Tick ✓ TRUE or FALSE.

		👍 TRUE	👎 FALSE
	Not everything online is true.		
	Deepfakes can look real.		
	"You won a prize!" is always true.		
	Verify means check if true.		
	Forward news before checking.		
	Compare sources to find the truth.		

HOME CONNECT

Pick one forwarded message your family got. Check together: fact or fake?

🔢 Self-assessment: tick one.

I know it well!

I know some.

I need practice.

EXERCISE: Think Before You Trust

Name: _____ Date: _____

A. Tick (✓) the correct answer.

1. Not everything online is ____.

(a) true ☐ **(b)** colourful ☐ **(c)** free ☐

2. The first step before sharing is to ____.

(a) forward ☐ **(b)** stop ☐ **(c)** like ☐

3. A reverse image search shows where a photo ____.

(a) is printed ☐ **(b)** is sold ☐ **(c)** came from ☐

4. Fake AI videos of real people are called ____.

(a) deepfakes ☐ **(b)** cartoons ☐ **(c)** selfies ☐

B. Fill in the blanks. Use the word box.

Check Compare decide debunk

1. ____ the source.

2. ____ with trusted sites.

3. Then ____.

4. Fact-checkers ____ fake news.

C. Write T for True and F for False.

1. Fake pictures can look very real. [ ]

2. We should forward shocking videos immediately. [ ]

3. Chatbots never make mistakes. [ ]

4. Trusted news sites help us check facts. [ ]

D. Match the following. Write the letter.

Column A		Column B
1. Stop	____	**(a)** Look at other sources
2. Check	____	**(b)** Pause before sharing
3. Compare	____	**(c)** Real, fake or misleading
4. Decide	____	**(d)** Who posted it?

E. Answer in one word.

1. What are fake AI videos called? _____

2. What search finds a photo's origin? _____

3. What is the first step: stop or share? _____

F. Answer these questions.

1. Write the four steps to check online information.

2. Why is forwarding fake news harmful?

G. Case-based questions. Read and answer.

Grandma received a video of a shark on a flooded highway. Riya's reverse image search showed it was an old edited image from another country, already marked fake by fact-checkers.

1. The video was ____.

(a) edited/fake ☐ **(b)** real and new ☐ **(c)** a live stream ☐

2. What tool did Riya use?

(a) A calculator ☐ **(b)** Reverse image search ☐ **(c)** A torch app ☐

3. What should Grandma do?

(a) Forward it ☐ **(b)** Make more copies ☐ **(c)** Tell the group it is fake ☐

H. THINK DEEPER

How can families stop fake news from spreading in WhatsApp groups?

Teacher: _____ Date: _____

? ANSWER KEY (for teachers & parents)

1. How Machines Get Smart

Quiz: 1-a 2-b 3-c 4-a 5-b
True/False: 1-T 2-T 3-F 4-T 5-T 6-F
Odd one out: A: picture 4; B: picture 3; C: picture 4
Part A 1: Alarm rings at 6 am: Fixed rule; Keyboard learns my words: Learns; Switch turns on a bulb: Fixed rule; App learns what I like: Learns; Map learns about traffic: Learns
Part A 2: 1-Collect data, 2-Practise, 3-Get feedback, 4-Get better
Part B 1: Circle: Smart keyboard, Map app, Game AI, Smart speaker
Part B 2: rules, data, feedback
Exercise A: 1-a 2-b 3-c 4-a
Exercise B: feedback, fixed, improve, data
Exercise C: 1-F 2-T 3-T 4-F
Exercise D: 1-b 2-d 3-a 4-c
Exercise E: Data; Feedback; No
Story next: Any sensible choice; best: They teach their grandparents to report spam
Exercise G (case): 1-a 2-b 3-c
Think deeper: Open answer; reward reasoning and examples.

2. Learning from Examples

Quiz: 1-a 2-b 3-c 4-a 5-b
True/False: 1-T 2-F 3-T 4-T 5-F 6-T
Odd one out: A: picture 4; B: picture 3; C: picture 4
Part A 1: Mango: Fruit; Potato: Vegetable; Pineapple: Fruit; Onion: Vegetable; Watermelon: Fruit
Part A 2: label, training, variety
Part B 1: Spam filter - Junk emails; Health AI - Many X-rays; Farm AI - Leaf photos; Voice AI - Many speakers
Part B 2: Cats of many colours: Good; Only white cats: Not good; Correct labels: Good; Wrong labels: Not good
Exercise A: 1-a 2-b 3-c 4-a
Exercise B: label, fair, test, out
Exercise C: 1-T 2-F 3-T 4-F
Exercise D: 1-b 2-d 3-a 4-c
Exercise E: Training; Label; Bias
Story next: Any sensible choice; best: Kabir helps train a sorter for bananas
Exercise G (case): 1-a 2-b 3-c
Think deeper: Open answer; reward reasoning and examples.

3. Think → Plan → Code	**Quiz:** 1-a 2-b 3-c 4-a 5-b **True/False:** 1-T 2-T 3-F 4-T 5-T 6-F **Odd one out:** A: picture 4; B: picture 3; C: picture 4 **Part A 1:** 1-Think, 2-Plan, 3-Code, 4-Test **Part A 2:** 1-Take brush, 2-Add paste, 3-Brush teeth, 4-Rinse mouth **Part B 1:** Think - Understand the problem; Plan - Draw the steps; Code - Write the program; Test - Check if it works **Part B 2:** Child's own work **Exercise A:** 1-a 2-b 3-c 4-a **Exercise B:** plan, bug, debugging, flowchart **Exercise C:** 1-T 2-F 3-T 4-F **Exercise D:** 1-b 2-d 3-a 4-c **Exercise E:** Algorithm; Bug; Test **Story next:** Any sensible choice; best: They add a timer to the quiz **Exercise G (case):** 1-a 2-b 3-c **Think deeper:** Open answer; reward reasoning and examples.
4. Coding Made Friendly	**Quiz:** 1-a 2-b 3-c 4-a 5-b **True/False:** 1-T 2-T 3-T 4-F 5-T 6-F **Odd one out:** A: picture 4; B: picture 3; C: picture 4 **Part A 1:** → → → ↑ ↑ ↑ ← ↑ or → → → ↑ ↑ ↑ ↑ ← **Part A 2:** 5, 3, 4 **Part B 1:** Move - Goes forward; Repeat - Does steps again; If-Then - Makes a decision; Sound - Plays a noise **Part B 2:** a) Move, b) Sound, c) Right **Exercise A:** 1-a 2-b 3-c 4-a **Exercise B:** loop, decisions, sprites, text **Exercise C:** 1-T 2-F 3-T 4-T **Exercise D:** 1-b 2-d 3-a 4-c **Exercise E:** Repeat; Sprites; Python **Story next:** Any sensible choice; best: Riya teaches Grandma block coding **Exercise G (case):** 1-a 2-b 3-c **Think deeper:** Open answer; reward reasoning and examples.
5. AI on the Road	**Quiz:** 1-a 2-b 3-c 4-a 5-b **True/False:** 1-T 2-F 3-T 4-T 5-T 6-F **Odd one out:** A: picture 4; B: picture 3; C: picture 4 **Part A 1:** Smart signal - Controls traffic; Route app - Shows the way; Auto brake - Stops a crash; Parking app - Finds a space **Part A 2:** Wearing a helmet: Safe; Using a phone while crossing: Unsafe; Using the zebra crossing: Safe; Running across the road: Unsafe **Part B 1:** Circle: Wear helmet, Zebra crossing, Seat belt, Look both ways **Part B 2:** sensor, traffic, safety **Exercise A:** 1-a 2-b 3-c 4-a **Exercise B:** waiting, fuel, location, helmet **Exercise C:** 1-T 2-F 3-T 4-T **Exercise D:** 1-b 2-d 3-a 4-c **Exercise E:** Camera; Fuel; Helmet **Story next:** Any sensible choice; best: Kabir makes a road-safety poster **Exercise G (case):** 1-a 2-b 3-c **Think deeper:** Open answer; reward reasoning and examples.

6. AI on the Farm

Quiz: 1-a 2-b 3-c 4-a 5-b
True/False: 1-T 2-T 3-F 4-T 5-T 6-F
Odd one out: A: picture 4; B: picture 3; C: picture 4
Part A 1: Circle: Drone, Smart sprinkler, Weather app, Leaf scanner
Part A 2: crop, pest, soil
Part B 1: Sick leaves - Leaf scanner; Rain - Weather app; Dry soil - Smart sprinkler; Huge field - Drone
Part B 2: 1-Plant seeds, 2-Water & care, 3-Harvest, 4-Food on plate
Exercise A: 1-a 2-b 3-c 4-a
Exercise B: Drones, treatment, water, experience
Exercise C: 1-T 2-F 3-T 4-F
Exercise D: 1-b 2-d 3-a 4-c
Exercise E: Drone; Moisture; Water
Story next: Any sensible choice; best: Riya helps other farmers use the app
Exercise G (case): 1-a 2-b 3-c
Think deeper: Open answer; reward reasoning and examples.

7. Explore Tech Careers

Quiz: 1-a 2-b 3-c 4-a 5-b
True/False: 1-T 2-F 3-T 4-T 5-T 6-F
Odd one out: A: picture 4; B: picture 3; C: picture 4
Part A 1: Developer - Writes software; Data analyst - Studies data; Cyber expert - Stops hackers; Robotics engineer - Builds robots
Part A 2: Child's own work
Part B 1: Circle: Developer, Space scientist, Game developer, Cyber expert
Part B 2: career, analyst, security
Exercise A: 1-a 2-b 3-c 4-a
Exercise B: build, worlds, scientists, data
Exercise C: 1-F 2-T 3-T 4-F
Exercise D: 1-b 2-d 3-a 4-c
Exercise E: Cybersecurity expert; Developer; Game designer
Story next: Any sensible choice; best: They interview more professionals
Exercise G (case): 1-a 2-b 3-c
Think deeper: Open answer; reward reasoning and examples.

8. Discover Your Skills

Quiz: 1-a 2-b 3-c 4-a 5-b
True/False: 1-T 2-T 3-F 4-T 5-T 6-F
Odd one out: A: picture 4; B: picture 3; C: picture 4
Part A 1: Coding: Hard; Teamwork: Soft; Maths: Hard; Speaking: Soft
Part A 2: Child's own answer
Part B 1: Coding - 💻; Teamwork - 🤝; Speaking - 🎤; Time management - ⏰
Part B 2: Child's own work
Exercise A: 1-a 2-b 3-c 4-a
Exercise B: strengths, daily, feedback, challenges
Exercise C: 1-T 2-F 3-T 4-F
Exercise D: 1-b 2-d 3-a 4-c
Exercise E: Hard; Soft; Feedback
Story next: Any sensible choice; best: They each pick a new skill to learn
Exercise G (case): 1-a 2-b 3-c
Think deeper: Open answer; reward reasoning and examples.

9. AI Learning Lab	**Quiz:** 1-a 2-b 3-c 4-a 5-b **True/False:** 1-T 2-F 3-T 4-T 5-T 6-F **Odd one out:** A: picture 4; B: picture 3; C: picture 4 **Part A 1:** Explain photosynthesis in 3 steps: Strong; Tell me stuff: Weak; Give 5 quiz questions on fractions: Strong; Help: Weak; Translate 'thank you' to Hindi: Strong **Part A 2:** prompt, summary, check **Part B 1:** Explain simply - Easy words; Quiz me - Questions; Translate - Other language; Summarise - Short version **Part B 2:** Child's own work **Exercise A:** 1-a 2-b 3-c 4-a **Exercise B:** translate, revise, think, mistakes **Exercise C:** 1-F 2-T 3-T 4-F **Exercise D:** 1-b 2-d 3-a 4-c **Exercise E:** Textbook; Summary; Yes **Story next:** Any sensible choice; best: Riya uses the same method for science **Exercise G (case):** 1-a 2-b 3-c **Think deeper:** Open answer; reward reasoning and examples.
10. Create with AI	**Quiz:** 1-a 2-b 3-c 4-a 5-b **True/False:** 1-T 2-F 3-T 4-T 5-F 6-T **Odd one out:** A: picture 4; B: picture 3; C: picture 4 **Part A 1:** 1-Have an idea, 2-Write a prompt, 3-Improve the draft, 4-Give credit **Part A 2:** Circle: Pictures, Stories, Music, Videos **Part B 1:** Poster - Picture maker; Video tune - Music maker; Comic - Story helper; Speech - Speech coach **Part B 2:** generative, draft, credit **Exercise A:** 1-a 2-b 3-c 4-a **Exercise B:** prompt, improve, style, art **Exercise C:** 1-T 2-F 3-T 4-F **Exercise D:** 1-b 2-d 3-a 4-c **Exercise E:** Prompt; Draft; Credit **Story next:** Any sensible choice; best: They make a poster on saving electricity **Exercise G (case):** 1-a 2-b 3-c **Think deeper:** Open answer; reward reasoning and examples.
11. Protect Your Data	**Quiz:** 1-a 2-b 3-c 4-a 5-b **True/False:** 1-T 2-F 3-T 4-T 5-F 6-T **Odd one out:** A: picture 4; B: picture 3; C: picture 4 **Part A 1:** 12345678: Weak; Mango#Tree27: Strong; Blue!Kite@9: Strong; arun2014: Weak **Part A 2:** Strange link - Don't click it; Asks OTP - Never share it; Location - Allow only if needed; Unknown app - Ask an adult first **Part B 1:** Circle: Password, Location, OTP, Personal photos **Part B 2:** OTP, phishing, privacy **Exercise A:** 1-a 2-b 3-c 4-a **Exercise B:** permissions, strong, OTPs, needed **Exercise C:** 1-F 2-F 3-T 4-T **Exercise D:** 1-b 2-d 3-a 4-c **Exercise E:** OTP; Settings; Strong **Story next:** Any sensible choice; best: Kabir checks all apps on the family phone **Exercise G (case):** 1-a 2-b 3-c **Think deeper:** Open answer; reward reasoning and examples.

12. Think Before You Trust

Quiz: 1-a 2-b 3-c 4-a 5-b
True/False: 1-T 2-T 3-F 4-T 5-F 6-T
Odd one out: A: picture 4; B: picture 3; C: picture 4
Part A 1: Your school textbook: Trust; "You won a free phone!": Check first; Your teacher's lesson: Trust; Forwarded "breaking news": Check first; A shocking viral photo: Check first
Part A 2: 1-Stop, 2-Check source, 3-Compare, 4-Decide
Part B 1: Circle: Textbook, Teacher, School website, Trusted newspaper
Part B 2: source, fake, verify
Exercise A: 1-a 2-b 3-c 4-a
Exercise B: Check, Compare, decide, debunk
Exercise C: 1-T 2-F 3-F 4-T
Exercise D: 1-b 2-d 3-a 4-c
Exercise E: Deepfakes; Reverse image search; Stop
Story next: Any sensible choice; best: Grandma learns to check videos herself
Exercise G (case): 1-a 2-b 3-c
Think deeper: Open answer; reward reasoning and examples.
